Attention: To Whom It May Concern

In the OPED page article today in the Florida Sun-Sentinel, Raymer Maquire, Director of Campaign and Policy for the Miami CLEO, wrote a very important piece questioning this huge rate increase demand by FPL. We agree!

We vehemently oppose this unjustified rate hike filed for approval by Florida Power and Light. It appears that every other year they request and receive rate hikes while their earnings are in the billions.

This rate hike is unwarranted on every level. They are supposed to function as a utility service to supply energy to Florida residents at a fair rate and earn a reasonable return on their investment. However, based on their historical earnings they are doing quite well!
Please vote against this historically high rate increase request.

Very truly yours,

On behalf of the 696 residents of Valencia Lakes Community, Boynton Beach, FL

Sanford Shuster
