

FLORIDA PUBLIC SERVICE COMMISSION

Item 3

VOTE SHEET

FILED 7/1/2025  
DOCUMENT NO. 05351-2025  
FPSC - COMMISSION CLERK

July 1, 2025

**Docket No. 20250048-EG** – Petition for approval of proposed demand-side management plan, by Florida Power & Light Company.

**Issue 1:** Should the Commission approve Florida Power & Light Company's proposed DSM Plan, program standards, and tariffs?

**Recommendation:** Yes, with modifications. The programs included in FPL's proposed DSM Plan are cost-effective based upon the Participants test, and either the Rate Impact Measure (RIM) or Total Resource Cost (TRC) test. FPL's DSM Plan is projected to meet the annual numeric conservation goals approved by the Commission in the 2024 Goalsetting Order. In addition, staff has reviewed FPL's program participation standards and they appear to be consistent with FPL's DSM Plan.

However, staff recommends the following modifications to FPL's HVAC On-Bill Pilot program: (1) require participants to also participate in FPL's Residential HVAC program; (2) eliminate the participants' requirement to participate in the Residential On Call program for the entire 10-, 12-, or 15-year service agreement terms; (3) cap program participation at the projections provided by FPL; and (4) cap program costs to those costs agreed upon by FPL and program participants at the time the service agreements are executed. These modifications would more closely align with the objectives of FEECA by increasing overall energy efficiency savings, remove participants' long-term commitment for participation in a load management program, and provide additional safeguards for the general body of ratepayers during the pilot phase of the program.

If staff's proposed modifications are approved, staff recommends that FPL submit revised versions of its Optional HVAC Services Rider tariff, Optional HVAC Services Agreement tariff, and program participation standards, as applicable, that reflect these modifications within 30 days of the Consummating Order in this docket, and that the Commission grant staff administrative authority to review and approve these documents. If the Commission approves FPL's proposal without modifications, then the tariffs as shown in Attachment C of staff's memorandum dated June 19, 2025, should be approved effective on the day of the Commission's vote.

**COMMISSIONERS ASSIGNED:** All Commissioners

**COMMISSIONERS' SIGNATURES**

**MAJORITY**

**DISSENTING**

**REMARKS/DISSENTING COMMENTS:**

**Docket No. 20250048-EG** – Petition for approval of proposed demand-side management plan, by Florida Power & Light Company.

(Continued from previous page)

Upon final approval by the Commission, FPL may file for cost recovery of the programs included in its DSM Plan in the Energy Conservation Cost Recovery (ECCR) clause proceeding. However, FPL must demonstrate that the expenditures to implement its DSM programs are reasonable and prudent in order to recover those expenditures.

**APPROVED** *as modified.*

*Only staff modification # 2 is approved.*

**Issue 2:** Should this docket be closed?

**Recommendation:** Yes. If no person whose substantial interests are affected by the proposed agency action files a protest within 21 days of the issuance of the order, a consummating order will be issued. However, if Issue 1 is approved, the docket should remain open for staff's verification that the revised documents have been filed by the Utility and approved by staff. When the proposed agency action is final and the revised documents have been approved, this docket may be closed administratively.
