Good morning,

As a Tampa resident, I am writing and begging to not allow TECO. Another rate increase that is wholly unnecessary and completely uncalled for.

People are already unable to even buy food or basic necessities for the day-to-day let alone be able to afford a considerable increase in rates. Personally, I am a single mother and count every single dollar the thought of my electric bill continuing to rise is overwhelming and daunting. Please, I beg for this to not be allowed. Listen to the voices of the people that are writing in.

I hope that this is taken into consideration and that there will be a stop to this.

Thank you,

Toula Markopoulos
