I'm writing as a resident in Hillsborough County and I urge you to **oppose any additional rate increases from TECO.**

Electric bills have already risen significantly in recent years, putting unnecessary strain on families, small businesses, and seniors on fixed incomes. Many of us are doing our part to conserve energy and manage costs, yet we're being asked to shoulder more increases.

Floridians deserve stable, affordable utility rates — not endless hikes that outpace inflation and wages. Please stand with your constituents and say **no** to more TECO rate increases.

Thank you for your time and for representing the interests of your community.
