Dear Commissioner Gary Clark,

I'm a Floridian and I am requesting that you vote NO on FPL's settlement agreement that would raise rates far above the national average.

If the Commission approves FPL's settlement, FPL will have the second highest return on equity in the country. That's a huge burden for Florida families who can barely afford our energy bills as it is.

Please reject FPL's settlement agreement and cap its return on equity to the national average of 9.6%.

I'm counting on you to protect Florida ratepayers.

Thank you for your consideration,

Sincerely,

Ms. Sammy H

I'm sorry to hear this. It just proves to me that the PSC is in FPL's pocket. My next step will involve the governor and demand the PSC be disbanded as they no longer work for the people. This is the problem with government they make rules and then don't follow them. It is apparent that the origin net meter was there to support solar power. INSTEAD YOU HAVE ALLOWED FPL TO MODIFY THE INTENT OF NET METERING AND VIOLATE THE GENERAL ADMINISTRATIVE CODE.

Good morning Jim,

Apologies for the delay on this. I looked at everything you sent and the rules and statutes we discuss, as well as the chronology of the complaint process handled by our PRT team.

Based upon my review, I still agree with the PRT team's conclusions. You entered an SGIA agreement with FPL upon being informed by FPL that your generation system was oversized for net metering purposes. There is an Order that supports FPL's position to limit net metering to exclude systems that are expected to exceed 115% of the customer's annual kWh consumption: PSC-2020-0029-PAA-EI. I understand your frustration and apologize for the delay again. Thanks.

Subject: FPL doesn't represent me – Docket #20250011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As a Florida resident and consumer, I know the value of my hard-earned money. I also know that the power and light I pay for every month is a lifesaver, especially during these extreme heat waves that are becoming all too common.

Florida Power & Light (FPL) wants to raise my rates by hundreds a year and make working residents like me foot the bill for their profits and executive bonuses. Reporting has shown that 50 cents of every dollar is going to profit, not keeping the power on.

Additionally, from March 2024 to February 2025, FPL shut off 1.216 M residential customers for non-payment — about a fifth of all their residential customers.

Florida families and small business owners make up the overwhelming majority of FPL's customers—we keep their business running. Now FPL has the audacity to say they "represent us" while excluding us from their backdoor negotiations with corporate buddies like Walmart and Publix.

The Office of Public Counsel—the watchdog for consumers—submitted expert testimony showing FPL is inflating the numbers and should cut rates by \$620 million, not raise them.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.
