INDEPENDENT AUDITOR'S REPORT

Pivotal Utility Holdings, Inc.
208 Wildlight Avenue
Yulee, FL

Opinion

We have audited the financial statements of Pivotal Utility Holdings, Inc. d/b/a Florida City Gas ("Florida City Gas" or the "Company"), which comprise the balance sheet – regulatory basis as of December 31, 2023, and the related statements of income – regulatory basis and retained earnings – regulatory basis, for the year then ended, included on pages 6 through 10 of the Company's Annual Report of Natural Gas Utilities, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets, liabilities, and proprietary capital of the Company as of December 31, 2023, and the results of its operations for the year then ended in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Basis of Accounting

As discussed in Note 1 to the financial statements, these financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. As a result, the financial statements may not be suitable for another purpose. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

FPSC EXH NO. 34
ADMITTED

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Restriction on Use

This report is intended solely for the information and use of the members and management of the Company and for filing with the Florida Public Service Commission and is not intended to be and should not be used by anyone other than these specified parties.

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.). Interpret all accounting words and phrases in accordance with the U.S. of A.

II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.

III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.

IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.

V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.

VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.

VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.

VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

I. Btu per cubic foot - The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)

II. Respondent - The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

ATTESTATION

I certify that I am the responsible accounting officer of

PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS

that I have examined the following report; that to the best of my knowledge, information, and belief, all statements of fact contained in the said report are true and the said report is a correct statement of the business and affairs of the above- named respondent in respect to each and every matter set forth therein during the period from January 1, 2023 to December 31, 2023, inclusive.

I also certify that all affiliated transfer prices and affiliated cost allocations were determined consistent with the methods reported to this Commission on the appropriate forms included in this report.

I am aware that Section 837.06, Florida Statutes, provides:

> Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty shall be guilty of a misdemeanor of the second degree, punishable as provided in S. 775.082 and S. 775.083.

CONTROL OVER RESPONDENT

1. If any corporation, business trust, or similar organization or combination of such organizations jointly held control over the respondent at end of year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s).
2. If the above required information is available from the SEC 10K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed provided the fiscal years for both the 10-K report and this report are compatible.

1. On November 30, 2023, Chesapeake Utilities Corporation ("CUC") completed the acquisition of Florida City Gas Company ("FCG"). Upon completion of the acquisition, FCG became a wholly owned subsidiary of CUC.

2. Chesapeake's annual report on Form 10-K was filed with the Securities Exchange Commission on February 21, 2024. This report was for the fiscal year ended December 31, 2023.

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.
4. If the above required information is available from the SEC 10-K Report Form filing, a specific reference to the report form (i.e. year and company title) may be listed in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

DEFINITIONS

1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Name of Company Controlled (a)	Kind of Business (b)	Percent Voting Stock Owned (c)	Footnote Ref. (d)
Note: Florida City Gas does not control any other entity. Our parent company, Chesapeake Utilities Corporation, does directly and indirectly control other subsidiaries. These organizations are listed in Chesapeake's Form 10-K.

OFFICERS

1. Report below the name, title and salary for each executive officer whose salary is $50,000 or more. An "executive officer" of a respondent includes its president, secretary, treasurer, and vice president in charge of a principal business unit, division or function (such as sales, administration or finance), and any other person who performs similar policymaking functions.

2. If a change was made during the year in the incumbent of any position, show name and total remuneration of the previous incumbent, and date the change in incumbency was made.

Title (a)	Name of Officer (b)	Salary for Year (c)
Director, Chairman, President & CEO	Jeffry M. Householder	$ 32,660
Executive Vice President/Secretary/General Counsel/ Corporate Secretary/ Chief Policy and Risk Officer	James F. Moriarty	$ 12,400
Executive Vice President, Chief Financial Officer, Treasurer and Assistant Corporate Secretary	Beth W. Cooper	$ 12,400
Senior Vice President and Chief Development Officer	Kevin J. Webber	$ 9,390
Senior Vice President and Chief Operating Officer	Jeffrey S. Sylvester	$ 14,500
Senior Vice President, Regulatory and External Affairs	Cheryl M. Martin	$ 13,520
Senior Vice President and Chief Accounting Officer	Michael D. Galtman	$ 12,100
Senior Vice President and Chief Information Officer	Vikrant A. Gadgil (1)	$ 12,380
Senior Vice President and Chief Human Resources Officer	William Hughston (2)	$ 23,234

Note: The salaries above represent only that portion allocated to Florida City Gas.

(1) Vikrant A. Gadgil was promoted to Senior Vice President effective January 1, 2024.

(2) William Hughston was promoted to Senior Vice President effective January 1, 2024.

DIRECTORS

1. Report below the information called for concerning each director of the respondent who held office at any time during the year. Include in column (a) abbreviated titles of the directors who are officers of the respondent.

2. Designate members of the Executive Committee by an asterisk and the Chairman of the Executive Committee by a double asterisk.

Name (and Title) of Director (a)	Principal Business Address (b)	No. of Directors Meetings During Yr. (c)	Fees During Year (d)
Jeffry M. Householder, Director, Chairman	500 Energy Lane, Dover Delaware 19901	7	$ -

SECURITY HOLDERS AND VOTING POWERS

1. Give the names and addresses of the 10 security holders of the respondents who, at the date of the latest closing of the stock book or compilation of the list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes which each would have had the right to cast on that date if a meeting were in order. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.) duration of the trust, and principal holders of beneficiary interests in the trust. If the stock book was not closed or a list of stockholders was not complied within one year prior to the end of the year, or if since the previous compilation of a list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders.
2. If any security other than stock carries voting rights, explain in a supplemental statement of circumstances whereby such security became vested with voting rights and give others important particulars (details) concerning the voting rights of such security. State whether voting rights are actual or contingent if contingent, describe the contingency.
3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote.
4. Furnish particulars (details) concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets so entitled to be purchased by any officer, director, associated company, or any of the ten largest security holders.

	VOTING SECURITIES			
	Number of votes as of (date):			
Name (Title) and Address of Security Holder (a)	Total Votes (b)	Common Stock (c)	Preferred Stock (d)	Other (e)
TOTAL votes of all voting securities				
TOTAL number of security holders				
TOTAL votes of security holders listed below				
Effective November 30, 2023, Florida City Gas became a wholly-owned subsidiary of Chesapeake Utilities Corporation.

IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquires. Each inquiry should be answered. Enter “none,” “not applicable” or “NA” where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule which it appears.
1. Changes in and important information to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give name of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
3. Purchase or sale of an operating unit or system: Give brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Give reference to Commission authorization if any was required.
7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
8. State the estimated annual effect and nature of any important wage scale changes during the year.
9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
10. State briefly the status of any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer director, security holder reported on the previous page, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
11. Estimate increase or decrease in annual revenues due to important rate changes: State effective rate and approximate amount of increase or decrease from each revenue classification. State the number of customers affected.
12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

1 In 2023, FCG renewed franchise agreements for a 30 year term with the City of Hialeah at the existing rate of 6%. FCG also renewed its franchise agreement with the City of Miami at the existing rate of 6%, for a term of 20 years with the option to renew for an additional 10 years. FCG also entered into a new franchise agreement with the Town of Indian River Shores at the rate of 0.5% for a 30 year term.

2 On November 30, 2023, Chesapeake Utilities Corporation completed the acquisition of Florida City Gas. The acquisition was approved by the Florida PSC. Chesapeake Utilities Corporation acquired FCG for $923.4 million in cash, including working capital adjustments as defined in the agreement, pursuant to the previously disclosed stock purchase agreement with Florida Power & Light Company. Upon completion of the acquisition, FCG became a wholly-owned subsidiary of Chesapeake Utilities Corporation.

9 Florida City Gas is subject to certain claims and legal actions arising in the ordinary course of business. The ultimate outcome of such pending or potential pending litigation cannot be predicted at this time; however, management does not anticipate that the ultimate liabilities, if any, arising from such claims and legal actions would have a material effect on the Florida City Gas' financial statements.
FCG 2022 Base Rate Case (Florida Public Service Commission Docket No. 20220069-GU) is currently pending on appeal before the Florida Supreme Court at Case Nos. SC2023-0988 and SC2023-1433, which could result in a potential refund to customers pending the final outcome and decision on appeal.

10 None

11 New base rates were implemented as of May 1, 2023. The increase in revenues by effective rate and revenue classification, and the impact to customers, are shown in the following table:

STATEMENT OF INCOME

1. Use page 11 for important notes regarding the statement of income or any account thereof.
2. Give concise explanations on page 11 concerning significant amounts of any refunds made or received during the year.
3. Enter on page 11 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionment from those used in the preceding year. Also give the approximate dollar effect of such changes.
4. Explain in a footnote if the previous year's figures are different from that reported in prior reports.

STATEMENT OF RETAINED EARNINGS

1. Report all changes in appropriated retained earnings, and unappropriated retained earnings for the year.
2. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
3. State the purpose and amount for each reservation or appropriation of retained earnings.
4. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
5. Show dividends for each class and series of capital stock.
6. Show separately the state and federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
7. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservations or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
8. If any notes appearing in the report to stockholders are applicable to this statement attach them at page 11.

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.

3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.

4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.

5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.

6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

See Notes to the Financial Statements attached

Notes to Financial Statements
For the Periods Ended December 31, 2023 and December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

On November 30, 2023, Chesapeake Utilities Corporation (Chesapeake Utilities) completed the acquisition of Florida City Gas (FCG, we, our, or us) for $923.4 million in cash, including working capital adjustments as defined in the agreement, pursuant to the previously disclosed stock purchase agreement with Florida Power & Light Company (FPL) which is a subsidiary of NextEra Energy Inc. (NEE) As a result of the acquisition, Chesapeake Utilities recognized approximately $461.2 million of goodwill which is residing on our balance sheet at December 31, 2023. Upon completion of the acquisition, FCG became a wholly-owned subsidiary of Chesapeake Utilities.

FCG is a utility engaged in the natural gas distribution and transmission business in Florida. We serve approximately 120,000 residential and commercial natural gas customers across eight counties in Florida, including Miami-Dade, Broward, Brevard, Palm Beach, Hendry, Martin, St. Lucie and Indian River. Our natural gas system includes approximately 3,800 miles of distribution main and approximately 80 miles of transmission pipe. Our rates and services are subject to regulation by the Florida Public Service Commission (FPSC).

Our financial statements are prepared in conformity with the accounting requirements of the FPSC, which are substantially equivalent to the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in the applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (US GAAP). The accounting requirements of the FERC and the FPSC applied by us in these financial statements are generally consistent with US GAAP, except for:

- The presentation of the current portions of long-term debt and regulatory assets/liabilities as long-term;
- The presentation of deferred income tax assets and liabilities separately rather than as a single amount;
- The presentation of cost of removal as a component of accumulated depreciation rather than as a regulatory liability;
- The classification of the provision for income taxes in net utility operating income;
- The presentation of pass-through revenue taxes, such as gross receipts taxes, franchise taxes and sales taxes, as revenues and operating expenses rather than on a net basis; and
- The omission of the statement of retained earnings for prior year for a comparative presentation

We have assessed and reported on subsequent events through April 26, 2024, the date these financial statements are available to be issued.

Regulatory Assets and Liabilities

FCG is subject to accounting requirements for the effects of rate regulation. Regulatory assets represent probable future revenues associated with certain costs that are expected to be recovered from customers through the ratemaking process. Regulatory liabilities represent probable future reductions in revenues associated with amounts that are expected to be credited to customers through the ratemaking process.

Regulatory assets and liabilities reflected in the balance sheets relate to:

FPSC EXH NO. 34
ADMITTED

(in thousands)	December 31, 2023 [1]	December 31, 2022
Regulatory Assets

Energy conservation program and other	$ 176	$ —
Deferred income tax credits [2]	18,441	18,882
Overrecovered SAFE/Franchise Costs	—	146
Accrued natural gas costs	627	
Unbilled Revenue	1,999	2,865
Total Regulatory Liabilities	$ 21,243	$ 21,893

[1] Certain asset and liability balances recognized as Regulatory Assets and Liabilities have been reclassified and presented to conform with the classification utilized by our other natural gas distribution businesses in Florida

[2] Includes excess deferred income tax liabilities resulting from the Tax Cuts and Jobs Act that was signed into law on December 22, 2017 and became effective January 1, 2018 (Tax Reform Legislation).

In the event that our operations are no longer subject to applicable accounting rules for rate regulation, we would be required to write off to income related regulatory assets and liabilities that are not specifically recoverable through regulated rates. In addition, we would be required to determine if any impairment to other assets, including plant, exists and write down the assets, if impaired, to their fair values. All regulatory assets and liabilities are to be reflected in rates. See Note 3, *Regulatory Matters*, for additional information.

Revenues

We record revenues when goods or services are provided to customers. Those revenues are based on rates approved by the FPSC. We have a rate structure that includes a volumetric rate design that allows the opportunity to recover certain costs based on gas usage. Revenues from sales and transportation services are recognized in the same period in which the related volumes are delivered to customers. Revenues from residential and certain commercial and industrial customers are recognized on the basis of scheduled meter readings. Additionally, unbilled revenues are recognized for estimated deliveries of natural gas not yet billed to these customers, from the last bill date to the end of the accounting period. For other commercial and industrial customers, revenues are based on actual deliveries to the end of the period.

Concentration of Revenue

We have a diversified base of customers. No single customer or industry comprises 10% or more of revenues. For all periods presented, uncollectible accounts averaged less than 1% of revenues.

FPSC EXH NO. 34
ADMITTED

Cost of Natural Gas
We have a fuel cost recovery mechanism. This mechanism provides a method of adjusting the billing rates to reflect changes in the cost of purchased fuel. The difference between the current cost of fuel and the cost of fuel recovered in billed rates is deferred and accounted for as either unrecovered purchased fuel costs or amounts payable to customers on the balance sheet. Generally, these deferred amounts are recovered or refunded within one year.

Income and Other Taxes
We use the liability method of accounting for deferred income taxes and provide deferred income taxes for all income tax temporary differences. Federal investment tax credits (ITCs) utilized are deferred and amortized to income over the average life of the related property. Taxes that are collected from customers on behalf of governmental agencies to be remitted to these agencies are presented on the balance sheet.

We recognize tax positions that are "more likely than not" of being sustained upon examination by the appropriate taxing authorities. See Note 4, *Income Taxes - Unrecognized Tax Benefits*, for additional information.

Property, Plant, and Equipment
Property, plant, and equipment is stated at original cost less any regulatory disallowances and impairments. Original cost includes: materials; labor; minor items of property; appropriate administrative and general costs; payroll-related costs such as taxes, pensions, and other benefits. The cost of replacements of property, exclusive of minor items of property, is capitalized. The cost of maintenance, repairs, and replacement of minor items of property is charged to other operations and maintenance expenses as incurred or performed.

Depreciation
Depreciation of the original cost of utility plant in service is provided using composite straight-line rates, which approximated 2.5% and 2.9% for the years ended December 31, 2023 and 2022, respectively. Depreciation studies are conducted periodically to update the composite rate that is approved by the FPSC. As part of the 2022 base rate case, the FPSC approved new depreciation rates which became effective January 1, 2023. When property subject to composite depreciation is retired or otherwise disposed of in the normal course of business, its original cost, together with the cost of removal, less salvage, is charged to accumulated depreciation. As such, gains or losses are not recognized, as they are ultimately refunded to, or recovered from, customers through future rate adjustments. Minor items of property included in the original cost of the asset are retired when the related property unit is retired.

The FPSC approved the Reserve Surplus Amortization Mechanism (RSAM) as part of the 2022 base rate case. The RSAM is recorded as either an increase or decrease to accrued removal costs which is reflected on our balance sheet and a corresponding increase or decrease to depreciation and amortization expense. We filed a forecast earnings surveillance report for 2023 with the FPSC on May 1, 2023 which contained a regulatory ROE of 10.0% intended to be earned based on the best information FCG had at that time. See Note 3, *Contingencies and Regulatory Matters*, for additional information.

Acquisition Adjustment
Until July 2018, FCG was held by Southern Company Gas, a wholly-owned, direct subsidiary of Southern Company. Upon Southern Company Gas' acquisition of Pivotal Utility in 2004, a $21.7 million positive acquisition adjustment was recorded for the difference between the cost of acquiring FCG and the original cost. The FPSC approved a 30-year amortization period for this adjustment and a roll forward of the accumulated amortization is as follows:

FPSC EXH NO. 34
ADMITTED

(in thousands)		
December 31, 2021	$	12,393
Amortization expense		722
December 31, 2022	$	13,115
Amortization expense		721
December 31, 2023	$	13,836

Measurement of Credit Losses on Financial Instruments
Effective January 1, 2020, we adopted Accounting Standards Update (ASU) 2016-13 that provides for a new methodology, the current expected credit loss (CECL) model, to account for credit losses for certain financial assets, including customer receivables. The CECL model requires an entity to consider current conditions and reasonable and supportable forecasts in addition to historical information when developing an allowance for credit losses. We book the estimate of lifetime credit losses in the month revenue is recognized or in the month losses on previously recognized revenues are identified. As of December 31, 2023 and December 31, 2022, we had a provision for uncollectible customer accounts of approximately $0.5 million and $0.6 million, respectively.

Receivables and Provision for Uncollectible Accounts
Our receivables consist primarily of natural gas sales and transportation services billed to residential, commercial, industrial, and other customers. Customers are billed monthly and payment is due within 30 days. For the majority of receivables, a provision for uncollectible accounts is established based on historical collection experience and other factors. For the remaining receivables, if we are aware of a specific customer's inability to pay, a provision for uncollectible accounts is recorded to reduce the receivable balance to the amount we reasonably expect to collect. If circumstances change, the estimate of the recoverability of accounts receivable could change as well. Circumstances that could affect this estimate include, but are not limited to, customer credit issues, customer deposits, and general economic conditions. Customers' accounts are written off once they are deemed to be uncollectible.

Materials and Supplies
Generally, materials and supplies are charged to inventory when purchased and then expensed or capitalized to plant, as appropriate, at weighted average cost when installed.

Natural Gas for Sale
Our natural gas inventories are carried at cost on a weighted average cost of gas basis.

Fair Value of Financial Instruments
We have entered into agreements with suppliers to purchase natural gas for resale to our customers. Purchases under these contracts either do not meet the definition of derivatives or are considered “normal purchases” and are accounted for on an accrual basis.

Financial assets with carrying values approximating fair value include accounts receivable. Financial liabilities with carrying values approximating fair value include accounts payable and other accrued liabilities.

Internal-Use Software
We capitalize qualifying implementation costs incurred to develop or obtain internal use software associated with cloud computing and hosting arrangements. Consistent with FERC accounting guidance, as of December 31, 2023 and December 31, 2022, we recognized approximately $5.7 million and $5.5 million, respectively, of implementation costs as capital and these costs are included in total utility plant. The costs are included in depreciation and

FPSC EXH NO. 34
ADMITTED

amortization over the 20-year term of the arrangement. In connection with our internal-use software, we have entered into perpetual licensing arrangements which are amortized to operation expenses over the life of the agreement. Upon acquiring FCG in November 2023, Chesapeake Utilities determined the arrangement will be terminated prior to the contractual expiration date and is estimated to conclude in July 2025. As a result, the prepayment balance was adjusted. As of December 31, 2023 and December 31, 2022, we had approximately $0.4 million and $10.5 million, respectively.

2. RETIREMENT BENEFITS

Prior to the acquisition of FCG by Chesapeake Utilities in November 2023, our employees participated in NEE's qualified noncontributory defined benefit pension plan. NEE used multiemployer accounting and allocated net pension benefit income or expense to its subsidiaries based on the pensionable earnings of the subsidiaries' employees. The calculation included several components of cost, offset by the expected return on plan assets. For the years ended December 31, 2023 and 2022, NEE allocated approximately $1.4 million and $1.3 million, respectively, of net pension benefit income to FCG, the current year allocation period ran from January 1, 2023 to November 30, 2023. Following the acquisition of FCG in November 2023, we are no longer being allocated a portion of NEE’s net pension expense associated with their defined benefit plan.

Our eligible employees participate in various benefit plans sponsored by Chesapeake Utilities. Chesapeake Utilities allocates to us a portion of the benefit costs associated with these plans. Our share of the costs is based on a portion of the benefits related to providing services to us. For the period from the acquisition through December 31, 2023, the recorded benefit costs related to these plans were not material.

Chesapeake Utilities’ 401(k) Retirement Savings Plan is offered to all eligible employees who have completed three months of service. Chesapeake Utilities matches 100 percent of eligible participants’ pre-tax contributions to the Chesapeake Utilities Retirement Savings Plan up to a maximum of six percent of the eligible compensation. The employer matching contribution is made in cash and is invested based on a participant’s investment directions. In addition, Chesapeake Utilities may make a discretionary supplemental contribution to participants in the plan, without regard to whether or not they make pre-tax contributions. Any supplemental employer contribution is generally made in Chesapeake Utilities common stock. With respect to the employer match and supplemental employer contribution, employees are 100 percent vested after two years of service or upon reaching 55 years of age while still employed by Chesapeake Utilities. New employees, who do not make an election to contribute or do not opt out of the Chesapeake Utilities Retirement Savings Plan, will be automatically enrolled at a deferral rate of three percent, and the automatic deferral rate will increase by one percent per year up to a maximum of ten percent. All contributions and matched funds can be invested among the mutual funds available for investment.

3. CONTINGENCIES AND REGULATORY MATTERS

General Litigation Matters

We are subject to certain claims and legal actions arising in the ordinary course of business. One such claim is a personal injury claim alleged to have occurred on July 6, 2016, in Miami-Dade County, Florida. The plaintiff claimed multiple fractures and traumatic brain injury arising from an accident on bicycle path with a gas cap belonging to FCG. However, we were not added as a defendant until October 2020, after other named defendants settled or were dismissed from the case. At the time the claim was filed against us, we did not believe it was probable that any amounts would be paid out in relation to the claim. As a result of our discovery efforts conducted through the third quarter of 2023, including depositions, production of documents, examinations, and expert reviews, we ultimately determined

FPSC EXH NO. 34
ADMITTED

that a payout on plaintiff's claim was probable and it was in our best interest to settle and resolve the case. The matter was settled in October 2023 for $850,000, prior to the acquisition of FCG by Chesapeake Utilities.

On October 25, 2023, we received a letter from a large industrial customer alleging lost production due to a third-party strike on one of our gas mains, which occurred on September 14, 2023, resulting in the interruption of the customer's gas service. The customer alleged a total financial impact of $860,705 due to the loss of production and requested we investigate the incident. We were in the early stages of investigating the customer's allegations, but anticipated that claims could be made against us in connection with the incident. Although we could not predict the outcome with certainty, based on the investigation conducted prior to the sale of FCG, we estimated that a loss of $250,000 would be incurred based on the alleged damages in connection with the incident. At the time of the acquisition, the liability associated with this claim was retained by FCG and there had been no change in the estimated loss at December 31, 2023.

The ultimate outcome of all other matters and such pending or potential litigation against FCG cannot be determined at this time; however, for current proceedings not specifically reported herein, management does not anticipate that the ultimate liabilities, if any, arising from such current proceedings would have a material effect on the Company's financial statements.

Regulatory Matters

Base Rates

In May 2022, FCG filed a general base rate increase with the FPSC based on a projected 2023 test year. In June 2023, the Florida PSC issued an order approving a single total base revenue increase of $23.3 million (which included an incremental increase of $14.1 million, a previously approved increase of $3.8 million for a liquefied natural gas facility, and $5.3 million to transfer the Safety, Access, and Facility Enhancement (SAFE) investments from a rider clause to base rates), with new rates becoming effective as of May 1, 2023. The Commission also approved FCG's proposed RSAM with a $25.0 million reserve amount, continuation and expansion of the capital SAFE program, implementation of an automated metering infrastructure pilot, and continuation of the storm damage reserve with a target reserve of $0.8 million. On June 23, 2023, the Florida Office of Public Counsel ("Florida OPC") filed a motion for reconsideration of the PSC's approval of RSAM, which was denied on September 12, 2023. On July 7, 2023, the Florida OPC filed a notice of appeal with the Florida Supreme Court, which is pending. The Florida OPC filed their initial brief on January 31, 2024.

The RSAM is recorded as either an increase or decrease to accrued removal costs which is reflected on our balance sheet and a corresponding increase or decrease to depreciation and amortization expense. In order to earn the targeted regulatory ROE in each reporting period subject to the conditions of the effective rate agreement, RSAM is calculated using a trailing thirteen-month average of rate base and capital structure in conjunction with the trailing twelve months regulatory base net operating income, which primarily includes the base portion of rates and other revenues, net of operations and maintenance expenses, depreciation and amortization, interest and tax expenses. In general, the net impact of these income statement line items is adjusted, in part, by RSAM or its reversal to earn the targeted regulatory ROE. For the year ended December 31, 2023, we recorded decreases to asset removal costs and depreciation expense of $9.5 million as a result of the RSAM adjustment.

Regulatory Infrastructure Programs

The majority of our regulatory infrastructure program assets and liabilities are included in base rates except for the net clause under recovery balances and for the regulatory infrastructure program costs, which are recovered through specific rate riders on a dollar-for-dollar basis. The rate riders that authorize the recovery of regulatory infrastructure program costs include both a recovery of cost and a return on investment during the recovery period.

FPSC EXH NO. 34
ADMITTED

In 2015, the FPSC approved the SAFE program, under which costs incurred for replacing aging pipes are recovered through a rate rider with annual adjustments and true-ups. In June 2023, the Florida PSC issued the approval order for the continuation of the SAFE program beyond its 2025 expiration date and inclusion of 150 miles of additional mains and services located in rear property easements. The SAFE program is designed to relocate certain mains and facilities associated with rear lot easements to street front locations to improve FCG's ability to inspect and maintain the facilities and reduce opportunities for damage and theft. In the same order, the Commission approved a replacement of 160 miles of pipe that was used in the 1970s and 1980s and shown through industry research to exhibit premature failure in the form of cracking. The program includes projected capital expenditures of $205 million over a 10-year period.

AFUDC

In September 2023, FCG filed a petition with the FPSC for approval to establish an AFUDC rate of 5.85%. The FPSC approved the rate on December 19, 2023, with the new rate effective as of July 1, 2023. FCG did not record any AFUDC for the year ended December 31, 2023.

4. INCOME TAXES

Prior to the acquisition of FCG by Chesapeake Utilities, NEE filed a consolidated income tax return and various combined and separate state tax returns on our behalf. Under that tax sharing agreement between NEE and certain of its subsidiaries, the income tax provision at each applicable subsidiary reflected the use of the "separate return method," except that tax benefits that could not be used on a separate return basis, but are used on the consolidated tax return, are recorded by the subsidiary that generated the tax benefits. Any remaining consolidated income tax benefits or expenses were recorded at the corporate level. Included in other regulatory assets and other regulatory liabilities on our balance sheet at December 31, 2023 is the revenue equivalent of the difference in deferred income taxes computed under accounting rules, as compared to regulatory accounting rules. As a result of the acquisition in November 2023, we settled our deferred tax assets and liabilities with FPL as an equity transaction.

Subsequent to the acquisition, FCG is included in the Chesapeake Utilities consolidated federal income tax return, along with all of Chesapeake Utilities' other subsidiaries. FCG will file a separate state income tax return in the state of Florida. Income taxes in the accompanying consolidated statements of income have been allocated to us if we were a separate taxpayer.

The components of income taxes are as follows:

(in thousands)	December 31, 2023	December 31, 2022
Federal		
Current	$ (7)	$ 2,679
Deferred	5,604	191
Total Federal	$ 5,597	$ 2,870
State		
Current	$ (231)	$ 463
Deferred	1,854	510
Total State	$ 1,623	$ 973
Total Income Taxes	$ 7,220	$ 3,843

FPSC EXH NO. 34
ADMITTED

The tax effects of temporary differences between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases, which give rise to assets and liabilities are as follows:

(in thousands)	December 31, 2023	December 31, 2022
Deferred Tax Assets		
Tax reform legislation	$ 4,423	$ 4,786
Other	219	700
Total deferred tax assets	$ 4,642	$ 5,486
Deferred Tax Liabilities		
Property related	$ 2,498	$ 37,940
Assets associated with employee benefit obligations	—	955
Other	1,345	1,186
Total deferred tax liabilities	$ 3,843	$ 40,081
Accumulated deferred income taxes, net	$ 799	$ 34,595

Effective Tax Rate

A reconciliation of the federal statutory income tax rate to the effective income tax rate is as follows:

	December 31, 2023	December 31, 2022
Federal statutory rate	21.0 %	21.0 %
State income tax, net of federal deduction	4.4 %	4.5 %
Amortization of deferred regulatory credit	(0.8)%	(3.7)%
Other, net	0.3 %	0.5 %
Effective income tax rate	24.9 %	22.3 %

Unrecognized Tax Benefits

FCG has no unrecognized tax benefits for any year presented. We classify interest on tax uncertainties as interest expense; however, we had no accrued interest or penalties for unrecognized tax benefits for any year presented. It is reasonably possible that the amount of the unrecognized tax benefits could change within 12 months. The settlement of federal and state audits could impact the balances. At this time, an estimate of the range of reasonably possible outcomes cannot be determined. The tax years 2019 through 2022 (Federal and State) remain subject to examination by our major tax jurisdictions.

5. FINANCING

Affiliate Loan Agreement with FPL

Prior to the Chesapeake Utilities acquisition of FCG, we had entered into an intercompany loan agreement with FPL for the purpose of funding our ongoing cash and working capital requirements. The loan agreement was available from January l, 2019 through January 1, 2069, (the Availability Period). The agreement allowed for a maximum of $150 million of short-term loans and $300 million of long-term loans to be outstanding at one time through the Availability Period. Each short-term loan would not exceed a 365 day term. Long-term loans would have a term between 1 year and 50 years. The interest rates for the loans would be variable and equal to FPL's weighted average

FPSC EXH NO. 34
ADMITTED

debt. Prior to the acquisition of FCG by Chesapeake Utilities, we terminated the intercompany loan agreement and settled our obligation with FPL as an equity transaction.

At December 31, 2023 and December 31, 2022, amounts outstanding were as follows:

	December 31, 2023		December 31, 2022	
(in thousands)	Weighted-average interest rate	Outstanding	Weighted-average interest rate	Outstanding
Long-term loans	— %	$ —	3.53 %	$ 176,150
Short-term loans	— %	—	1.13 %	25,150
Total		$ —		$ 201,300

6. COMMITMENTS

Pipeline charges and storage capacity include charges recoverable through a natural gas cost recovery mechanism, or alternatively, billed to marketers of natural gas.

FCG has also made commitments in connection with a portion of their projected capital expenditures. Capital expenditures include, among other things, the cost for construction or acquisition of additional facilities and equipment to meet customer demand, as well as capital improvements to and maintenance to existing facilities.

Contractual obligations and estimated expenditures at December 31, 2023 were as follows:

(in thousands)	2024	2025	2026	2027	2028	Thereafter	Total
Pipeline charges and storage capacity [1]	$ 9,609	$ 9,574	$ 9,574	$ 9,574	$ 9,366	$ 13,456	$ 61,153
Capital expenditures [2]	72,831	81,044	64,030	62,143	63,426	—	343,474
Total	$ 82,440	$ 90,618	$ 73,604	$ 71,717	$ 72,792	$ 13,456	$ 404,627

[1] Includes charges recoverable through a natural gas cost recovery mechanism, subject to review by the FPSC.

[2] Represents projected capital expenditures through 2028 for which applicable internal approvals (and also, if required, regulatory approvals) have been received. The above estimates are subject to continuing review and adjustment and actual capital expenditures may vary significantly from estimates.

7. AFFILIATE TRANSACTIONS

Prior to the Chesapeake Utilities acquisition of FCG, FPL purchased and sold natural gas to meet FCG's gas supply requirements under a Gas Purchase and Sale Agreement. All costs associated with services provided by FPL were direct billed to FCG. All costs associated with natural gas purchase and sale activities were recoverable through the natural gas cost recovery mechanism. For the eleven months ended November 30, 2023 and the year ended December 31, 2022, the net sale amounts under the Gas Purchase and Sale Agreement were $10.9 million and $26.6 million, respectively, reflected in operation expenses.

At December 31, 2022, we had $7.2 million in payables which was primarily due to FPL related to corporate support provided by the affiliated entity and amounts relating to purchases of natural gas as discussed above. At December 31, 2022, we also had $2.6 million in payables due to NEE relating to federal income tax payments made on behalf of FCG and $0.5 million in payables due to NEE relating to state income taxes. As a result of the acquisition of FCG by Chesapeake Utilities, FCG settled its affiliate obligations as of November 30, 2023 with FPL and NEE as an equity transaction.

FPSC EXH NO. 34
ADMITTED

Financing Arrangements

Subsequent to the acquisition, our excess cash is transferred to Chesapeake Utilities to be invested in overnight income-producing accounts. We utilize Chesapeake Utilities' short-term borrowing facility and Chesapeake Utilities' long-term debt to satisfy our financing needs. For the year ended December 31, 2023, Chesapeake Utilities allocated to us $4.7 million in interest expense, which represents a portion of interest from Chesapeake Utilities' short-term and Chesapeake Utilities' long-term debt, net of a portion of interest income from the overnight income-producing accounts.

Allocated Costs from Affiliates

Chesapeake Utilities provides us with administrative and support services. These services include certain managerial, accounting, information technology, payroll, human resources and treasury services. For the year ended December 31, 2023, Chesapeake Utilities charged us $1.9 million for these services. Chesapeake Utilities also provides us with shared services which include safety and customer care services. For the year ended December 31, 2023, Chesapeake Utilities charged us $0.2 million for these services.

Advances from Affiliates

FCG does not issue debt or equity directly as the funding needs are managed centrally at the parent-level by Chesapeake Utilities. Any funding needs for FCG are recorded via intercompany accounting that does not differentiate between debt and equity proceeds. As of December 31, 2023, we had net advances payable to Chesapeake Utilities and its subsidiaries in the amount of $928.4 million which includes the debt and equity to fund the FCG acquisition of approximately $923 million in November 2023.

As of the date of the financial statements were available to be issued, FCG lacks sufficient cash to repay this payable. Chesapeake Utilities has committed to not calling this payable and to providing sufficient funding to us to enable FCG to meet its cash needs through at least April 27, 2025.

Firm Transportation Service and Natural Gas Purchase/Sale

Peninsula Pipeline Company, Inc. ("Peninsula Pipeline"), a wholly-owned subsidiary of Chesapeake Utilities, provided us with firm transportation service in conjunction with our service in Florida. For the year ended December 31, 2023, we incurred $0.3 million in cost from the date subsequent to the acquisition associated with this transportation service, which was included in the cost of fuel and our fuel cost recovery mechanism. Prior to the acquisition these costs were not classified as an affiliate transaction.

8. REVENUE RECOGNITION

Customer Revenue

We recognize revenue when our performance obligations under contracts with customers have been satisfied, which generally occurs when we have delivered natural gas to customers. We bill customers for both the delivery of natural gas and the related commodity, as our customers are also required to purchase the commodity from us. We consider the delivery of natural gas and the related commodity sale as one performance obligation because the commodity and its delivery are highly interrelated with two-way dependency on one another. Our performance obligation is satisfied over time as natural gas is delivered and consumed by the customer. We recognize revenues based on monthly meter readings, which are based on the quantity of natural gas used and rates approved by the FPSC. We accrue unbilled revenues for natural gas that has been delivered, but not yet billed, at the end of an accounting period, to the extent that billing and delivery do not coincide. We exclude sales taxes and other similar taxes from the transaction price.

FPSC EXH NO. 34
ADMITTED

Typically, our customers pay for the goods and/or services we provide in the month following the satisfaction of our performance obligation.

Contract Balances

The timing of revenue recognition, customer billings and cash collections results in trade receivables, unbilled receivables, and customer advances in our balance sheets. As of December 31, 2023, and 2022, the balance of our trade receivables, net of our allowance for expected credit losses, was $17.0 million and $15.5 million, respectively. As of December 31, 2023, and 2022, there were no contract assets or liabilities recorded on the consolidated balance sheet.

Remaining Performance Obligations

We have long-term fixed fee contracts with customers in which revenues are recognized as performance obligations are satisfied over the contract term. Revenue for the remaining performance obligations at December 31, 2023 are expected to be recognized as follows:

(in thousands)	2024	2025	2026	2027	2028	2029 and thereafter

Note:

1. The assets in acquisition column for Account 303 were transferred from 303.02 after the acquisition of FCG by CUC.

2. The remaining assets in the acquisition column for Account 303.02 and all the assets in Account 303.2 were kept by NextEra.

3. After the acquisition by of FCG by CUC, RSAM depreciation was transferred from 1080 to 108R.

4. The rest of the dollars in the Acquisition column are due to NextEra reporting SAFE assets in with regular assets. After the acquisition, Chesapeake transferred the assets into different Account Nos. to distinguish SAFE from regular assets.

Name of Respondent	For the Year Ended
PIVOTAL UTILITY HOLDINGS, INC. D/B/A FLORIDA CITY GAS	December 31, 2023

GENERAL DESCRIPTION OF CONSTRUCTION OVERHEAD PROCEDURE

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.

A. Summary of Depreciation, Depletion, and Amortization Charges

Description of Overhead	Nature of Work (a)	General Procedure for Determining the Amount Capitalized (b)	Method of Distribution to Construction Jobs (c)	Whether Different Rates are Applied to Different Types of Construction (d)	Basis of Differentiation in Rates for Different Types of Construction (e)	Whether the Overhead is Directly or Indirectly Assigned (f)
Benefits Capitalized	Employer portion of paid employee benefits includes: Pension, Medical, Dental, Life, Retiree credits and etc.	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll
Performance Incentives	Employee short term incentives	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll
Payroll Taxes Expense Capitalized	Employer portion of paid employee Payroll Taxes	Payroll dollars charged to Capital	Application of overhead rate to the payroll charges	Rates applied are the same across all construction types	N/A	Overhead Cost is directly charged to payroll

Note: All other construction overheads are direct charges for affiliate payroll or outside services.

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year.

2. Explain in a footnote any difference between the amount for book cost of plant retired, line 11, column (c) and that reported for gas plant in service, pages 22 - 27, column (d), excluding retirements of non-depreciable property.

3. The provisions of Account 108 in the Uniform System of Account require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.

4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

SECURITIES ISSUED AND SECURITIES REFUNDED OR RETIRED DURING THE YEAR

1. Furnish a supplemental statement giving a brief description of security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses.
2. Furnish particulars (details) showing fully the accounting for the total principal amount, par value, or stated value of each class and series of security issued, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gains or losses relating to securities retired or refunded and gains or losses relating to securities retired or refunded.
3. Included in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares.
4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, give references to the Commission authorization for the different accounting and state the accounting method.

Prior to the sale to Chesapeake, FGC had entered into an intercompany loan agreement with FPL for the purpose of funding the Company's ongoing cash and working capital requirements. The loan agreement was available from January 1, 2019 through January 1, 2069, (the Availability Period). As a result of the sale of the Company, the Company settled its obligation with FPL as an equity transaction.

Chesapeake Utilities did not issue, refund, or retire securities after acquisition.

UNAMORTIZED LOSS AND GAIN ON REACQUIRED DEBT (Accounts 189, 257)

1. Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, particulars (details) of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue.
2. In column (c) show the principal amount of bonds or other long-term debt reacquired.
3. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with General Instruction 17 of the Uniform Systems of Accounts.
4. Show loss amounts by enclosing the figures in parentheses.
5. Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debit-Credit.

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filing, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.
2. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
3. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

UNAMORTIZED DEBT EXPENSE, PREMIUM AND DISCOUNT ON LONG-TERM DEBT (Accounts 181, 225, 226)

1. Report under separate subheadings for Unamortized Debt Expense, Unamortized Premium on Long-Term Debt and Unamortized Discount on Long-Term Debt, particulars (details) of expense, premium or discount applicable to each class and series of long-term debt.
2. Show premium amounts by enclosing the figures in parentheses.
3. In column (b) show the principal amount of bonds or other long-term debt originally issued.
4. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
5. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year.
6. Identify separately indisposed amounts applicable to issues which were redeemed in prior years.
7. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt Discount and Expense, or credited to Account 429, Amortization of Premium on Debt - Credit.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.
2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

GAS OPERATING REVENUES (Account 400)

1. Report below natural gas operating revenues for each prescribed account in total.
2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
3. Report quantities of natural gas sold in therms (14.73 psia at 60 F).
4. Report gas service revenues and therms sold by rate schedule.
5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

NUMBER OF GAS DEPARTMENT EMPLOYEES

1. The data on number of employees should be reported for payroll period ending nearest to October 31, or any payroll period ending 60 days before or after October 31.
2. If the respondent's payroll for the reporting period includes any special construction personnel, include such employees on line 3, and show the number of such special construction employees in a footnote.
3. The number of employees assignable to the gas department from joint functions of combination utilities may be determined by estimate, on the basis of employee equivalents. Show the estimated number of equivalent employees attributed to the gas department from joint functions.

GAS PURCHASES (Accounts 800, 800.1, 801, 802, 803, 804, 804.1, 805, 805.1)

1. Provide totals for the following accounts:
800 - Natural Gas Well Head Purchase
800.1- Natural Gas Well Head Purchases Intracompany Transfers
801 - Natural Gas Field Line Purchase
802 - Natural Gas Gasoline Plant Outlet Purchase
803 - Natural Gas Transmission Line Purchase
804 - Natural Gas City Gate Purchase
804.1- Liquefied Natural Gas Purchases
805 - Other Gas Purchase
805.1- Purchases Gas Cost Adjustments

The totals shown in columns (b) and (c) should agree with the books of account. Reconcile any differences in a footnote.
2. State in column (b) the volume of purchased gas as finally measured for the purpose of determining the amount payable for the gas. Include current year receipts of makeup gas that was paid for in prior years.
3. State in column (c) the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in column (b).
4. State in column (d) the average cost per Therm to the nearest hundredth of a cent. (Average means column (c) divided by column (b) multiplied by 100.)

Line No.	Account Title (a)	Gas Purchased-Therms (14.73 psia 60 F) (b)	Cost of Gas (In dollars) (c)	Average Cost Per Therm (To nearest .01 of a cent) (d)

7	804.1 - Liquefied Natural Gas Purchases	317,833	$ 603,615	$ 1.90
8	805 - Other Gas Purchases			
9	805.1 - Purchased Gas Cost Adjustments			
10	TOTAL (Total of lines 1 through 9)	50,783,619	$ 30,625,637	$ 0.60

Notes to Gas Purchases

GAS USED IN UTILITY OPERATIONS - CREDIT (Accounts 810, 811, 812)

1. Report below particulars (details) of credits during the year to Accounts 810, 811 and 812 which offset charges to operating expenses or other accounts for the cost of gas from the respondent's own supply.
2. Natural gas means either natural gas unmixed, or any mixture of natural and manufactured gas.
3. If the reported Therms for any use is an estimated quantity, state such fact in a footnote.
4. If any natural gas was used by the respondent for which a change was not made to the appropriate operating expense or other account, list separately in column (c) the Therms of gas used, omitting entries in columns (d) and (e).
5. Report pressure base of measurement of gas volumes at 14.73 psia at 60 degrees F.

NEW OR AMENDED CONTRACTS WITH AFFILIATED COMPANIES

Provide a synopsis of each new or amended contract, agreement, or arrangement with affiliated companies for the purchase, lease, or sale of land, goods, or services (excluding tariffed items). The synopsis shall include, at a minimum, the terms, price, quantity, amount, and duration of the contracts.

Name of Affiliate	Synopsis of Contract
Peninsula Pipeline Company, Inc.	Pivotal Utility Holdings, Inc. d/b/a Florida City Gas entered into an additional Firm Transportation Agreement dated June 8, 2021 with Peninsula Pipeline Company. This agreement was to extend the pipeline from the first Firm Transportation Agreement to serve additional delivery points in Vero Beach, Florida. For the first five years, the monthly reservation will be $201,141. The quantity of dekatherms is 10,176 per a day. The duration of the contract is 30 years. The pipeline was placed into service April 1, 2023.
Peninsula Pipeline Company, Inc.	When Florida City Gas entered into the second Firm Transportation Agreement above, they amended the first Firm Transportation Agreement, for Indian River County, to extend for the same term as the second.
Palms Insurance Company, Limited	Palms Insurance Company, Limited provides various lines of insurance coverage to FCG. Palms provides insurance for FCG employees' workers' compensation liability up to policy limit of $5,000,000 per accident or per employee. The policy term started November 15, 2023 and continued through November 30, 2023, the date of the FCG divestiture*.
Palms Insurance Company, Limited	Palms insures the FCG fleet vehicles for third-party auto liability up to $3,000,000 per occurrence in excess of a $25,000 per accident retention for accidents prior to March 1, 2016 and a $100,000 per accident retention for accidents occurring on or after March 1, 2016 through January 1, 2020. Beginning January 1, 2020, Limit of Liability is $5,000,000 any one Occurrence, inclusive of Defense costs. In 2022, Insured's self-retention is $750,000 any on Occurrence, inclusive of Defense Costs. The policy term started November 15, 2023 and continued through November 30, 2023, the date of the FCG divestiture*.
Palms Insurance Company, Limited	Excess Liability Insurance was issued by Associated Electric & Gas Insurance Services (AEGIS) effective December 1, 2020. Palms has a 35% quota share of the $50,000,000 liability per occurrence and $70,000,000 per aggregate excess of the liability layer. Palms has a liability of $35,000,000 in excess of $225,000,000, Palms has an additional $7.5MM quota share of the $370,000,000 liability per occurrence excess of the liability layer. The policy terms started November 15, 2023 and continued through November 30, 2023, the date of the FCG divestiture*.
Palms Insurance Company, Limited	Palms writes a Crime and Fidelity coverage, which includes loss of assets, loss of client assets, personal identity event expenses, credit card forgery, and loss of employees benefit plan assets, all as more fully defined herein the policy document. The coverage has a liability of $35,000,000 per occurrence in excess of a $20,000,000. Premium for the term March 31, 2023 through November 30, 2023, the date of divestiture, is $1,993.
Palms Insurance Company, Limited	Fiduciary Liability Insurance issued by Palms, includes managed care services, voluntary compliance settlements, and covered penalties, all as more fully defined herein the policy document. Palms has a liability of $15,000,000 per occurrence in excess of a $60,000,000. Premium for the term March 31, 2023 through November 30, 2023, the date of divestiture, is $1,128.
Brevard Energy, LLC	On September 22, 2023, Pivotal Utility Holdings, Inc. d/b/a Florida City Gas (FCG) and Brevard Energy, LLC entered into a "Renewable Natural Gas Interconnection Service Agreement." The agreement is for Brevard Energy, LLC, a Renewable Natural Gas Producer, to interconnect and deliver renewable natural gas from their facilities into FCG's system. Under the agreement, FCG will commit $5,214,000 in capital costs necessary for the design and construction of the interconnection facilities. Brevard Energy, LLC will pay FCG a monthly service charge over a 23 year period which will recover the cost of the service associated with the interconnect facilities, and a monthly volume charge that shall be equal to the number of therms injected into FCG's system at a rate of $0.015 per therm. The initial term of the agreement is for a period of 25 years after the later of the target completion date or the first flow date, and shall automatically renew on a year to year basis until cancelled by either party.

**Note that the premiums for the 2-week policy period for Worker's Compensation, Auto/Fleet and Excess Liability were paid by NextEra Energy, Inc. and any premium credit for the remainder of the policy terms will be issued to NextEra Energy, Inc.*

Hi Bety

FCG serves approximately 110K customers. I can get an exact count by customer class if needed. I have copied Solomon in this email to provide the Capital project information.

Thank you.

Hi Will,
Pat Lee and I are working the 2024 depreciation study for Florida City Gas and need some information regarding FCG's current operations. Can you please tell us how many customers FCG serve and provide us with some details for all current and known future capital projects. We would also need the estimated start date for any known future projects.
Thanks,

Hello Bety,
With acquisitions we load asset data as it was in their CPR at the date of acquisition. There's no detail of retirements, adjustments or transfers booked prior to acquisition.

What we have is details for transactions that occurred 12/2023 through 9/2024.
Latisha has pulled a roll forward for December 2023 as well as YTD through September, and a detail listing of the CPR as of 9/2024.

I've also attached the 2023 FERC form. It's a combination of Nextra's 1/23-11/23 with our 12/23. You can use this as a rollforward for 2023, but just know we did not acquire all of the assets from Nextra there were software we didn't acquire.

Thanks!

Subject: RE: Florida City Gas - Depreciation Study Request

Hi All,

I found a couple of differences between the 2023 PP report and FERC Form I am hoping you can help explain. For 2023, the GL balances for Accounts 3671, 3761, 3762, and 376P do not tie to the 2023 PP report. I do see all the differences offset - Acct 3761 offsets with Acct 3761 and Acct 3762 offsets with Acct 376P. So I need to know:

1) If the mains in 3671 are true transmission mains or are they in fact distribution mains. If there is an error in PP, when will the balance be reclassified to distribution? I have confirmed the assets in 3671 are gas distribution and I will work on the account transfer in Power Plan for Oct's close.
2) Why is the amount of SAFE assets transferred from 3762 to 376P not the same? The amount reported on the FERC form is greater than what is stated on the PP report for 2023. At the time of the transfer from NextEra to CHPK, some SAFE assets that should have been loaded as 3762 because of the SAFE to Base Rate implantation in May 2023 were loaded in error to 376P. The asset balance of 376P was then adjusted, and some assets were split to allocate to 3762 (base), bringing the plant in-service balance back to the beginning balance. In addition, projects needed to be closed, but since they were listed as Conversion assets within Power plan, a manual adjustment was also made for 12/2023.

Thanks,
Bety Maitre

I can't see I've seen that level of detail around the $25M originally authorized. If we have that somewhere, then I'd say that the balance in 108R for the RSAM recognized to date would just be pro-rata based on the original build up of the $25M.

Looping in Cathy to see is she may recall seeing that detail at any point.

Thanks,
Mike

Subject: RE: Discuss FCG Depreciation Study

Hi Bety/Pat,

Below are my responses from today's meeting.

Please let me know if you need any additional information.

1. **SAFE Program now consists of 3 categories:**

a) Relocation of gas mains and services located in the rear lot easements to the street front to improve safety and reliability ➔ this was the original SAFE program (254 miles - 10 year 2015-2025). Was extended during FCG rate case in 2022/2023 for another 10 years and 150 miles.
b) Replacement of early vintage polymer ("Orange Pipe") pipelines. 160 miles ➔ was filed/approved in FCG 2022/2023 rate case (10 year 2024-2034)
c) Problematic Pipe – PSC approved in 2024
   - Pipeline Spans – segments of above-ground pipe that cross over geographical features such as: canals/rivers, drainage ditches and roadways (bridges). Spans are susceptible to outside force damage as well as corrosion threats.
   - Obsolete Pipe and Related Facilities (M&R Stations) –
     - Aldyl-A pipe (another type of vintage plastic) / 1st generation plastic pipe
     - Bare steel, cast iron …..
     - Obsolete parts/materials – some pipelines and facilities (stations) that are currently safe to operate but nonetheless are at risk of 3rd party damage and failure because of obsolete materials and standards used at the time
   - Shallow and Exposed pipe

2. **SR520 Renew Lee Warner Park**
   a. December forecast: $500K

3. **M&R/Gate Stations identified on PSC filing: (* costs are high-level estimates… subject to change)**

M&R Station	Obsolete	Eau Gallie Gate Station Renewal
M&R Station	Obsolete	Titusville Gate Station Renewal
M&R Station	Obsolete	OUC Gate Station Renewal
M&R Station	Obsolete	Ryder 106 ST District Regulator Stati
M&R Station	Obsolete	Melbourne Gate Station Renewal
M&R Station	Obsolete	Odorant Tank Upgrade - South Mian
M&R Station	Obsolete	Substation 3 District Station Valve R
M&R Station	Obsolete	West Miami Gate Station Valve Repl

Thanks,
Vince

Good Morning Bety –

The FCG retirements for 2024 have been processed monthly and timely. The Main retirements are provided by Noah Guzman, who is part of the GIS team, and the meters are provided by Sindy Figueroa, who is part of the Construction team. Attached are 2024 YTD retirements that have been processed and approved each month by account.

Unfortunately, until I receive the retirement files, I do not know how much to expect to be processed for the remainder of the year. The retirement quantity varies each month.

Thank you,

Latisha N. Morgan

Hi Latisha and Kahli,

We noticed retirements dollars for 2024 were materially lower than that of the previous year's 21-23. Do you know if all the retirements for 2024 have been processed? If not, how much do you expect to process before years end? Can you please provide the data by utility account.

Thanks,
Bety Maitre

Hi Bety –

Please see my responses in red.

Hi Jim – For question 5 below, are you familiar with the Vehicle iPad Configuration? In Jan 2022, there looks to be an enhancement to a vehicles. Was the enhancement the physical iPad or the system within the iPad? I don't have much details on this project, any supporting files in Power Plan were not transferred from NEE at the time of the acquisition.

Thank you,

Latisha N. Morgan

Subject: FCG Depreciation Study Request -

Hi Latisha,

Can you please provide additional details for the study.

For FCG Account 303:

1) What are the BCA Portal 2021 and 2023 Enhancements? The Business Case Authorization (BCA) is the system that initiates and controls the data flow to populate the new accounts into several FCG databases. The enhancement was build additional functionalities to allow the end users (FCG Construction Management team) to input more detail data to new and existing customers. The enhancement also included enhancing the communications that interact with other FCG systems (from BCA to Maximo and then to Starnik).
2) What are Cognizant Enhancements? Based on the scope of the project, Cognizant Enhancements are as followed: Design, build and enhance analytical algorithms, operational metrics and dashboards in the Power BI for Billing Exceptions, Account Receivable and Collections. Create CGI Tracker process for supporting Field Operations team. Bridge Knowledge on FCG end to end systems processes to develop Meter end of life

algorithm. Assist FCG team in performing quality control measurement and efficiency improvements to existing functionality.

3) What are the Starnik Capital Enhancements? Should this be in 3032? Starnik is the system FCG uses for customer service and billing. Below are just a few of the functional enhancements as follow. This could fall under 3032, what are your thoughts based on the description?
   - Enhance the data security to make sure it adheres to PCI rule
   - Enhancements to the interface Entrata (property management software) and new import opens.
   - Allow failed AutoBot jobs to be set automatically retry and user will receive an email alert if an AutoBot status is Completed with Errors
   - Easily assign routes or partial routes to meter reading technicians.
4) How are all these software applications used in FCG's operation? Based on the scope of work, these system does help with FCG's operation in their own way.

For Account 3915:

5) Year 2022 - The field vehicle configuration swap as part of the IT integration for $75,502. What is a vehicle configuration swap? Is this software enhancements? If so, should this be in a different account – possibly 3030? Need to research more..

Can you please get back to us as soon as you can. They want this study done as soon as possible.

Thanks,
Bety

This Message Is From an External Sender
This message came from outside your organization.

The accounting treatment when a meter, meter loop, or a family of meters are junked or replaced, is a retirement of installation costs. If a meter is replaced, the installation cost of the replacement is capitalized as a new installation. When the year of installation is unknown, the FIFO method is used to process the retirement. For every meter set retirement, one unit cost of meter installation and regulator installation is retired.

Subject: Re: FCG Depreciation Study Request - Need help from operations ASAP

See below. I need more context for question 3 I'm sure I understand.

1. Do you expect general M&R stations to experience a longer life than city gate stations?
I would expect a general M&R station to have a similar life expectancy as a city gate.
2. Are general M&R stations more likely to be relocated and changed due to capacity needs than cite gate stations?
Yes a general M&R station would be more likely to be relocated or changed.
3. Are general M&R stations being retired when moving away from low pressure areas?
??

Hi Yuliya and Latisha,

We have a rush request for FCG's Depreciation Study. We need help responding to ROG 3-18. It's asking for a reconciliation of vintage year 2021 and I am off by $160K. Can you let us know why the in-service year for the steel mains listed below is year 2021 in your PowerPlan system. During the study, FPL provided us with the addition entries for years 2021-2023 and that support document shows an in-service year of 2022 for these mains (see below). We really need to know as soon as possible, preferably today if you can get the information to us. Sorry for the rush request but we really need to have this response completed by tomorrow for review.

Thanks
Bety

Yes, same asset on both books. I was asking if the vintage reported on CHPK's CPR system is correct or incorrect. On FPL's CPR its listed as being placed in service in 2022. CHPK's CPR has the asset as being placed in service in 2021. Was there a reason for the change in the vintage year?

FPSC EXH NO. 35
ADMITTED

INTERROGATORIES

1. Please refer to OPC witness Dunkel's Direct Testimony, page 58, lines 16 -18. In the event that OPC witness's recommendations are approved by the Commission, please identify the following:

   i) The benefits, if any, to the Company.

   ii) The detriments, if any, to the Company.

   iii) The benefits, if any, to the customers.

   iv) The detriments, if any, to the customers.

OPC RESPONSE:

i. There are several benefits to the Company if the OPC witness's recommendations are approved by the Commission.

a) The OPC recommendation would give the Company more time to develop the proper data. Mr. Dunkel's testimony states the following:

> I recommend this case be closed and the current depreciation rates remain in effect. I recommend that a new, correct, depreciation study be filed as part of the coming rate case.

This case demonstrates that the Company needs more time to obtain a clear understanding of the correct numbers. The Company was acquired by Chesapeake in December 2023. (Schedule G 2021 Notes). This caused many accounting changes. For Example, FCG states the following on Schedule G 2021 Notes:

> Restated account numbers based on Chesapeake's other natural gas chart of account. All CHPK's natural gas business units uses the same chart of accounts to streamline operations. Reclassified Steel Mains from Account 3761 to newly proposed account 3762. Reclassified Plastic Mains from Account 3762 to newly proposed account 3761. Reclassified Steel Services from Account 3801 to newly proposed account 3802. Reclassified Plastic Services from Account 3802 to newly proposed account 3801.

This case has revealed there are numerous errors in the Company numbers, many of them not yet resolved. The initial FCG analysis in this docket calculated a depreciation reserve surplus of approximately $27 million, and the FCG analysis on October 3, 2025 calculated a depreciation reserve surplus of approximately $22 million, and the FCG analysis on November 4, 2025 filing calculated a depreciation reserve surplus of approximately $19 million. There are still numbers in the FCG November 4, 2025 filing which would benefit from time for further review. For example, page 22 of the 2021 FCG Annual Report to the FPSC shows that the Additions in 2021 were $5,565,780 in Mains -Steel. This 2021 Annual Report was audited by Deloitte. There have been no retirement or transfers in the 2021 vintage in this account, so the 2021 vintage investment still in service should be $5,565,780. In the FCG October 3, 2025, filing FCG said the balance in service in Mains -Steel in the 2021 vintage was $546,527. In the November 4, 2025 filing, FCG changed this to be $386,460. The most recent $386,460 number FCG is now using is still vastly inconsistent with the accurate, audited, number of $5,565,780.

The fact that FCG is still jumping around trying to determine the numbers, further proves that FCG does not have a good understanding of what the actual numbers are. This uncertainty of the numbers reinforces the OPC recommendation that this case be closed and the current depreciation rates remain in effect, and that a new, correct, depreciation study be filed as part of the coming rate case.

FPSC EXH NO. 35
ADMITTED

FCG said the following:

> **Supporting entries were not provided by FPL** with the reconciliation schedule; and therefore, **vintages for the correcting entries cannot be determined by FCG**.

(Empasis added. See Exhibit WWD-5, page 6 of 11. From the FCG response to Citizens' Third Set of Interrogatories, Interrogatory No.18. The FCG responses to Citizens' Third Set of Interrogatories, Interrogatories Nos.17-19 have been filed as Exhibit WWD-5.)

Allowing more time should allow FCG to obtain the additional information FCG states it needs. (If FCG needs the Commission's assistance in obtaining information from the prior owner, FPL, FCG should ask the Commission for assistance, all of which takes time.)

b) The OPC witness also recommends that the new depreciation study include the statistical analysis of the life data. Statistical analysis provides the most accurate determination of the average service life and dispersion (Curve Shape) of an account. Having the most accurate data is a benefit to all, including the Company.

ii. The OPC is not aware of any material detriment to the company of dismissing the FCG depreciation submittal and refiling in conjunction with a rate case.

Under the OPC recommendation the Company would continue to book the Commission-approved depreciation rates. The OPC witness states the following:

> "I recommend this case be closed and the current depreciation rates remain in effect. I recommend that a new, correct, depreciation study be filed as part of the coming rate case."

Rule 25-7.045(4)(a), F.A.C., requires regulated gas utilities to file a depreciation study "…at least once every five years from the submission date of the previous study..." A depreciation study is not now due, and will not be due until May 31, 2027.

For the Company to continue booking the Commission-approved depreciation rates is proper until, prior to May 31, 2027, a proper depreciation study using accurate data is filed.

FPSC EXH NO. 35
ADMITTED

iii. One benefit of the OPC recommendation is that the money that the ratepayers have overpaid for depreciation, will not be taken from them and given to the owners.

FCG witness Lee stated the following:

> I also generally agree with his assessment that the existence of a reserve surplus is an indication that customers have overpaid, or are overpaying, depreciation expense. (Page 5, lines 13-15, Lee Rebuttal Testimony).

Under the OPC recommendation this money that the ratepayers have overpaid for depreciation, would be used to the benefit of the ratepayers, which is appropriate since the surplus is the result of the ratepayers having overpaid for depreciation. This contrasts with the FCG unreasonable proposal that the surplus, which is the result of the ratepayers have overpaid for depreciation, be transferred to the owners.

Another benefit of the OPC recommendation is that in the coming rate case, the ratepayers would not be charged a rate of return on investment which had already been recovered from the ratepayers. We will Use a mortgage as an analogy. Assume you had originally borrowed $100,000 but have paid back $40,000 and therefore the unrecovered balance is $60,000. In a mortgage you pay interest in the unrecovered balance, $60,000 in this example. Likewise in a rate case the ratepayers are responsible for a rate of return on the unrecovered balance. The depreciation reserve tracks how much have already been recovered from the ratepayers, similar to the $40,000 amount in the mortgage example. If the bank owner took $10,000 out of your mortgage account, that would make it appear that the unrecovered balance was $70,000, and you would have to pay interest on $70,000 (although in reality the unrecovered balance is $60,000). The FCG proposal to take $19 million out of the depreciation reserve has the same effect. If $19 million is taken out of the FCG depreciation reserve, that will make the apparent unrecovered balance $19 million higher than the actual unrecovered balance. Under the FCG proposal, the ratepayers would have to pay a rate of return on $19 million which actually already has been recovered from the ratepayers. Forcing the ratepayers to pay a rate of return on this $19 million would which had already been recovered would force the ratepayer to pay $1.2 million per year rate of return on investment which had already been recovered from them (which becomes $1.7 million per year after the Revenue Expansion Factor [for income taxes]). (See Figure 2 in the Dunkel Direct Testimony).

FPSC EXH NO. 35
ADMITTED

iv. The OPC is not aware of any detriments to the customers of the OPC proposal. Under the OPC recommendation, FCG will continue booking the Commission-approved depreciation rates until, prior to May 31, 2027, a proper depreciation study using accurate data is filed.

RESPONSES TO FLORIDA CITY GAS'S
FIRST SET OF INTERROGATORIES (NOS.1-7)

1. Is Mr. Kunkler providing testimony as an expert witness in this proceeding?

   Response: Yes.

2. Has Mr. Kunkler provided testimony in any prior proceeding before the Florida Public Service Commission?

   Response: No.

3. Has Mr. Kunkler performed a depreciation study?

   Response: No.

4. In which proceedings has Mr. Kunkler provided technical recommendations to the Commission on depreciation-related issues, as referenced on page 2, lines 18-21?

   Response:

   - Docket No. 20190183-EI - Petition for approval of a new depreciation class and for energy storage equipment, by Duke Energy Florida, LLC.
   - Docket No. 20200059-EI - Petition for approval of amortization rate for customer account management system, by Gulf Power Company.
   - Docket No. 20200191-GU - Petition for approval of amortization rate for Starnik customer information system and other software accounting adjustments, by Florida City Gas.
   - Docket No. 20220029-EI - Petition for approval of a plant account and depreciation rate for electric vehicle DC fast charge stations by Duke Energy Florida, LLC.
   - Docket No. 20230089-EI - Petition for approval of depreciation rate for electric vehicle charging stations, by Tampa Electric Company.

FPSC EXH NO. 36
ADMITTED

5. Did Mr. Kunkler provide technical recommendations to the Commission on depreciation-related issues in Docket No. 20220069? If not, on what issues did Mr. Kunkler provide technical recommendations to the Commission in that proceeding?

Response:

No. Mr. Kunkler provided technical recommendations in Docket No. 20220069 on the following issues:

- Issue 1: Is FCG's projected test period of the twelve months ending December 31, 2023, appropriate?
- Issue 2: Are FCG's forecasts of customer and therms by rate class for the projected test year ending December 31, 2023, appropriate? If not, what adjustments should be made?
- Issue 3: Are FCG's estimated revenues from sales of gas by rate class at present rates for the projected test year appropriate? If not, what adjustments should be made?
- Issue 36: Is FCG's projected Total Operating Revenues for the projected test year appropriate?
- Issue 71: Should the Commission approve FCG's requested four-year rate plan?

6. Has Mr. Kunkler participated as a staff technical analyst in any Commission proceeding in which Ms. Lee appeared as depreciation witness for a utility? If so, please identify which dockets.

Response:

Yes. Mr. Kunkler participated as staff technical analyst in Docket No. 20220067-GU, however he was not assigned to any depreciation-related issues in that docket.

a. If so, did Commission staff agree with Ms. Lee's depreciation analysis?

FPSC EXH NO. 36
ADMITTED

Response: Please refer staff's recommendation (Document No. 00188-2023, filed January 11, 2023, in Docket 20220067-GU), Issues 5 - 8 for staff's analysis and recommendations on the depreciation-related issues in that case.

b. Did the Commission agree with Ms. Lee's depreciation analysis?

Response: Please refer to Order No. PSC-2023-0103-FOF-GU, issued March 15, 2023 in Docket 20220067-GU.

7. Have there been cases involving depreciation studies before the Florida Public Service Commission to which Mr. Kunkler was assigned in which the Commission has deemed the use of a proxy group of Florida-based companies for comparison purposes an appropriate basis for determining average service lives for a Florida-based natural gas utility?

Response: Yes.

RESPONSES TO CITIZEN'S
FIRST SET OF INTERROGATORIES (NOS.1-3)

1. Please refer to Commission Staff Direct Testimony of Edwin A. Kunkler IV in Docket No. 20250035-GU filed November 12, 2025, Exhibit EAK-1 and answer the following:

   a. Is it correct that the reason year 2020 data was the most recent year of actual data which was included in Exhibit EAK-1, is that the Company's 2025 Depreciation Study did not include a statistical life analysis of its depreciable accounts? If this is not a correct statement, please provide the corrected statement and the support for the corrected statement.

      Response: Yes

   b. Is it correct that the most recent year of actual data included in Exhibit EAK-1 is 2020? If this is not a correct statement, please provide the corrected statement and the support for the corrected statement.

      Response: Yes.

   c. Is it correct that with respect to the data included in Exhibit EAK-1, that the source of data through the year 2020 is the prior FCG depreciation study performed by Gannett Fleming? If this is not a correct statement, please provide the corrected statement and the support for the corrected statement.

      Response: Yes.

2. Is it correct that in the Staff calculation of the Average Age of Account 3762: Mains-Steel, in the 2021 vintage, the balance of Mains-Steel in service at the time used in the study was $546,527? If this is not a correct statement, please provide the corrected statement and the dollar amount of the 2021 vintage used in the Staff Average Age calculation in this account which underly the "Staff Proposed" columns in Exhibit EAK-4.

   Response: Yes.

3. On page 12, line 23 of the Commission Staff Direct Testimony of Edwin A. Kunkler IV in Docket No. 20250035-GU filed November 12, 2025, Mr. Kunkler states the following: "My calculated reserve surplus is approximately $6.9 million…" Is it a correct statement that the

FPSC EXH NO. 37

FCG's Resp to OPC's 1st ROGs Nos.1-3

(with attachment)

INTERROGATORY NO. 1- 1(b)

INTERROGATORIES

1. **RSAM. Please refer to FCG's 2022 "Petition for Approval of Rate Increase and Request for Approval of Depreciation Rates by Florida City Gas" filed in Docket No. 202200069-GU. Paragraph 29 of the petition states:**

> **"In connection with its four-year rate plan, FCG proposes that a total Reserve Amount of $25 million, representing a portion of the theoretical reserve imbalance, be available for use in the RSAM until base rates are reset following FCG's next general base rate proceeding which, under the four-year rate plan, would be expected to occur in 2026 with new base rates effective in January 2027."**

Please also refer to FCG's most recent earnings surveillance report filed with the Commission for the 12 months ending December 31, 2024. The last page of that report includes a document entitled, "Florida City Gas Reserve Amount Balance as of December 31, 2024." There, FCG indicated that the Remaining Reserve Amount as of December 31, 2024, was $6,879,538.

a. **When does FCG currently anticipate that the $6,879,538 Remaining Reserve Amount as of December 31, 2024, will be fully amortized?**

b. **What is the remaining Reserve Amount of the $25 million RSAM Reserve Amount as of February 24, 2025?**

Company Response:

a. The report that OPC is referencing is apparently the 2024 Forecasted ESR, which was filed in March 2024. The report for the actual 12-months ending December 2024 was filed March 28, 2025. Per the December 2024 surveillance report, all but $2.00 was used by year's end.

b. As of February 24, 2025, the remainder is $0.

Respondent: Miguel Bustos

INTERROGATORY NO. 1(c)

c. **If FCG anticipates that the $25 million RSAM Reserve Amount will be fully amortized before December 31, 2026, please explain why.**

Company Response:

c. Due to inflationary pressures on operational costs, and market conditions beyond the Company's control since the last rate case, FCG has not been able to earn its authorized return; therefore, to cover for these revenue deficiencies, FCG has utilized the RSAM Mechanism to avoid significantly under-earning. Schedule "A" shows the RSAM utilization since 2023.

Respondent: Miguel Bustos

FPSC EXH NO. 39
ADMITTED

INTERROGATORY NO. 2(a-c)

2. **RSAM. Please refer to FCG's earning surveillance reports filed with the Commission, which reflect the periods ending March 31, 2024 ("March Report"), June 30, 2024 ("June Report"), and September 30, 2024 ("September Report"). Please specifically refer to the last page of each report, which reflect the Reserve Amount Balances for each respective period.**

a. **Please explain why the September Report states that in June, 2024, FCG debited $2,043,338 from the Reserve Amount, but the December Report states that in June, 2024, FCG debited $7,874,011 from the Reserve Amount.**

b. **Please identify all documents that support FCG's response to interrogatory 2(a) above.**

c. **Please explain why the March Report and the June Report reflect that the total amortization from 5/31/2023 – 12/31/2023 was $9,872,584 but the September Report reflects that that total amortization from 5/31/2023 – 12/31/2023 was $9,492,341.**

d. **Please state whether increases in affiliate charges caused more of the $25 million RSAM to be depleted (debited) than was anticipated when rates were originally established in 2023.**

Company Response:

a. The $2,043,338 was the amount booked to the reserve in June. The report with a balance of $7,874,011 is the forecasted 2024 report, not the actuals.

b. Please refer to Schedule "A" attached

c. The report that reflected the amount $9,872,583 includes both the booked amount of $9,492,341 and the $380,242 adjustment for RSAM on the Net Operating Income Schedule 2, page 2, adjustment 10. The attachment to the September report only showed the amounts booked, and not the amounts adjusted based on the rolling 12-months for each quarter's earnings surveillance report. See also, Schedule A.

Respondent: Miguel Bustos

INTERROGATORY NO. 2(d)

d. **Please state whether increases in affiliate charges caused more of the $25 million RSAM to be depleted (debited) than was anticipated when rates were originally established in 2023.**

Company Response:

d. FCG objects to this request as vague given that it is unclear whose "anticipation" is referenced for comparison. FCG was under different ownership when rates were set in 2023; therefore, the Company cannot speak to what was anticipated at that time by company leadership. With that said, and without waiving the aforementioned objection, FCG states that the answer to Interrogatory 2(d) is 'no'.

Respondent: Miguel Bustos

FPSC EXH NO. 39
ADMITTED

INTERROGATORY NO. 3(a)

3. **Synergies. Please refer to page 4 of FCG's February 24, 2025, petition where FCG states the following:**

"This will not only provide customers with an extended period of rate stability and rate case expense savings, but given that FCG has only recently been acquired by Chesapeake Utilities Corporation, this additional time should enable FCG and its new parent company to identify additional synergies across its expanded Florida platform and implement cost management practices and processes that are in line with the rest of Chesapeake's Florida platform."

a. **Please identify and describe all synergies that FCG or Chesapeake Utilities Corporation ("Chesapeake") have identified following Chesapeake's acquisition of FCG.**

b. **Please provide the estimated savings from all synergies that FCG or Chesapeake have identified following Chesapeake's acquisition of FCG, and state whether those savings have or have not already been returned to customers.**

Company Response:

a. FCG objects to this request to the extent that currently identified synergies have no bearing on the resolution of FCG's request for approval of its depreciation study and requested amortization of the reserve imbalance reflected therein. Such inquiry is not likely to lead to the discovery of admissible evidence in this proceeding and is therefore beyond the scope of permissible discovery. With that said and without waiving this objection, FCG states as follows:

FCG has only been under the Chesapeake corporate umbrella for a little over a year. As such, while certain synergies, as well as efficiency opportunities, have been identified, FCG anticipates more will be identified in the future. Early synergies identified thus far are as follows:

INTERROGATORY NO. 3(a), cont.

- Standardization of procurement policies and the ability to leverage larger volumes to obtain better pricing on goods and service needed for operations. This includes items such as materials and vehicle maintenance for example.
- The ability to leverage Chesapeake's expertise to attain multiple system expansions that enhance transmission access, diversify supply sources, and increase system capacity and resiliency in order to ultimately support customer growth. The implementation of a new CIS system will improve the existing billing and payment processes. This project will integrate FCG into one streamlined system used across Chesapeake. This new system will allow the customers to experience a unified customer service and experience improvements in the timing, accuracy of billing, and inquiry resolution.

- Implementation of a field service management system. The new system will provide the ability to consolidate customer information, automate service order processing, and exception reporting, as well as the ability to see multiple accounts associated with the same customer. This system will enable FCG to improve the scheduling functionality and dispatching of work orders, as well as improve our adherence to scheduled appointments.
- Access to an enhanced management portal to better accommodate changes in the industry and the Company's complex gas delivery environment. This will also provide FCG suppliers and business partners easy access to critical data to manage their daily and monthly business on the Company's distribution system.

Respondent: Miguel Bustos

INTERROGATORY NO. 3(b)

b. Please provide the estimated savings from all synergies that FCG or Chesapeake have identified following Chesapeake's acquisition of FCG, and state whether those savings have or have not already been returned to customers.

Company Response:

b. FCG objects to this request in that it far exceeds the scope of this proceeding. FCG has submitted a depreciation study for approval in this proceeding, and while a benefit associated with its proposed amortization of the reserve imbalance reflected therein is, as stated, additional time before the filing of another rate case, as well as additional time to identify efficiencies and synergies between the FCG, its new parent, and its sister companies, nothing about FCG's petition and depreciation study in this proceeding involves or requires the identification of synergies or savings. In short, FCG has not requested approval of an acquisition adjustment in this proceeding.

FCG's Resp to OPC's 2nd ROGs Nos.4-16

(with attachments)

INTERROGATORY NO. 4(a-b)

INTERROGATORIES

4. **Depreciation**. For the following questions, assume that a change in depreciation rates, which was not part of a general rate case, had the effect of reducing the amount of depreciation expenses booked by $1 million per year.

The Uniform System of Accounts (CFR Title 18-vol 1, part 201) says the following:

"108 Accumulated provision for depreciation of gas utility plant.

A. This account shall be credited with the following:

(1) Amounts charged to account 403, Depreciation Expense…"

a. Does FCG agree that a $1 million annual reduction in depreciation expense would result in a $1 million reduction in the annual amount credited into Account 108 (which Account 108 is often referred to as the Depreciation Reserve). If this is not a correct statement, please provide the corrected statement and the support for the corrected statement.

b. Does FCG agree that, because this proceeding is not part of a rate case and that absent action by the Commission to otherwise reduce rates (prices/tariffs), the amount collected from ratepayers in rates (prices/tariffs) would **not** decrease as a result of this change in depreciation rates? If this is not a correct statement, please provide the corrected statement and the support for the corrected statement.

Company Response

a. Agreed.

b. Agreed. However, the Florida Public Service Commission ("FPSC") does not require that a revision in depreciation rates be filed

FPSC EXH NO. 40 Docket No. 20250035-GU
ADMITTED

commensurate with a revenue rate proceeding. Additionally, there are numerous Commission decisions where revised depreciation rates resulting in increases or decreases in annual depreciation expenses have been approved with no adjustments to revenue rates.

Rule 25-7.045, F.A.C., (4) states:

(a) Each company shall file a study for each category of depreciable property for Commission review at least once every five years from the submission date of the previous study or pursuant to Commission order and within the time specified in the order. A utility filing a depreciation study, regardless if a change in rates is being requested or not, shall submit to the Office of Commission Clerk the information required by paragraphs (5)(a) through (g) of this rule in electronic format with formulas intact and unlocked. (emphasis added)

(b) A utility proposing an effective date of the of its fiscal year shall submit its depreciation study no later than the mid-point of that fiscal year.

(c) A utility proposing an effective date coinciding with the expected date of additional revenues initiated through a rate case proceeding shall submit its depreciation study no later than the filing date of its Minimum Filing Requirements. (emphasis added)

Respondent: Patricia Lee and Bety Maitre

INTERROGATORY NO. 5(a-b)

5. **Depreciation.** The FCG response to Staff Second Set of Data Requests, No. 11 (a) includes the following:

> "Retirement activity averaging less than 1 % provides insufficient data to perform any meaningful statistical analyses results for life or salvage characteristics; therefore, it was necessary to rely on life characteristics for similar plant of other Florida gas utilities to make a complete analysis."

On page 29 of the FCG PDF response to Staff First Set of Data Requests, FCG cites to the depreciation parameters for FPUC from Order No. PSC-2023-0103-FOF-GU.

a. Is it correct that in the FPUC case, the Commission states the following regarding FPUC witness Lee's testimony pertaining to FPUC:

> "Witness Lee explained that retirement rates for FPUC **averaged less than one percent** since the last depreciation study for many accounts, **which provided insufficient data to perform any meaningful statistical analyses for life characteristics**, which led her to **rely on life characteristics for similar plant of other Florida gas companies to make a complete analysis**." (Emphasis added) (Page 15, Order No. PSC-2023-0103-FOF-GU.)

b. If the lives for FCG were not based on the FCG data, but instead were based in part on the lives used by FPUC, and lives for FPUC were not based on the FPUC data, but instead were based in part on the lives used by FCG; how does FCG avoid the fact that this is circular logic?

Company Response:

a. Yes.

b. Circular reasoning fallacy does not exist here. The reasonableness of average service lives is based on a range of average service lives underlying prescribed average remaining lives of other Florida gas utilities. These average service lives have been vetted in prior studies

FPSC EXH NO. 40
ADMITTED

INTERROGATORY NO. 5(a-b), cont.

by the Commission and therefore are considered reasonable. Prescribed account average remaining lives are based on an account average service life, curve shape, and average age. The average age of the given account is based on the specific utility's data. Additionally, as noted in FCG's responses to Staff's 1st Data Request, Ms. Lee reviewed the statistical analysis results performed by Gannett Fleming in Docket No. 20220069-GU and did not believe additional statistical analysis of history was necessary. To expect that the embedded investment is likely to experience similar net salvage to that experienced by such historic miniscule retirements, Ms. Lee believes is not appropriate. FCG proposals are based on an interpretation of the data based on Ms. Lee's vast experience along with discussions with Company personnel. Companies operating in a similar environment and regulations should be considered to have life and salvage expectations within a reasonable range.

Respondent: Patricia Lee and Bety Maitre

FPSC EXH NO 40
ADMITTED

INTERROGATORY NO. 6(a-c)

6. **Depreciation**. In response to Staff First Set of Data Requests, No. 7(d) regarding the net salvage factor of Account 3801, Plastic Services, the FCG response included the following:

> "**The retirement rates of less than 1 % are not reliable for net salvage projections**.
>
> To expect that the remaining account investment is likely to experience similar net salvage to that experienced by such historic miniscule retirements, Ms. Lee believes is not appropriate…. Thus, neither the (132)% negative net salvage experience over the 2021-2024 period nor the (398)% experience over the 2004-2024 period are considered representative of future expectations when they both relate **to such few retirements**. Ms. Lee also relied on discussions with Company personnel regarding removal cost associated with retired services (See response 7(a)). The proposed (40)% net salvage factor **is more in line with the projections of other Florida utilities than the currently prescribed net salvage factor.**" (Emphasis added).

On page 30 of FCG's PDF response to Staff First Set of Data Requests, the Company shows the Net Salvage factors for other Florida gas utilities which FCG considered. This FCG document shows Current Prescribed Net Salvage Factors for (1) Saint Joe, (2) Peoples Gas, (3) FPUC, and (4) Sebring Gas.

a. Pertaining to regulated gas customers in Florida, is it correct that Sebring Gas has approximately 1,000 customers, Saint Joe has approximately 5,000 customers, FPUC has approximately 85,000 customers, Florida City Gas has approximately 125,000 customers, and Peoples Gas has approximately 500,000 customers? If this is not a correct statement, please provide the corrected statement, including the number of regulated gas customers in Florida for each of the listed utilities, and provide the support for the corrected numbers.

FPSC EXH NO. 40
ADMITTED

INTERROGATORY NO. 6(a-c), cont.

b. As quoted above, FCG claims the FCG actual retirement data contains "**such few retirements**" that it allegedly cannot be used. Please explain why it is allegedly reasonable to believe that information pertaining to Saint Joe and Sebring gas, which have only a tiny fraction of the number of customers that FCG has, would be sufficient to rely on in determining the FCG net salvage factors, whereas the much larger amount of data that FCG has, is allegedly "**such few retirements**" that is cannot be used.

c. Does FCG claim that the lives of the small utilities Saint Joe and Sebring Gas were based on actuarial analysis of the aged Saint Joe and Sebring Gas data? If the response is "yes," provide the support for that claim.

Company Response:

a. FCG and FPUC's consolidated natural gas division have approximately 125,000 and 100,000 customers, respectively. FCG does not have access to the customer count of other companies.

b. The fact is that the retirements are insufficient to rely on the results of any statistical analysis for service life or net salvage projections. Additionally, as noted in FCG's responses to Staff's 1st Data Request, Ms. Lee reviewed the statistical analysis performed by Gannett Fleming in Docket No. 20220069-GU and did not believe additional statistical analysis of history was necessary. To expect that embedded investment is likely to experience similar net salvage to that experienced by such historic miniscule retirements, Ms. Lee believes is not appropriate. FCG proposals are based on an interpretation of the data based on Ms. Lee's vast experience along with discussions with Company personnel.

FPSC EXH NO. 40
ADMITTED

INTERROGATORY NO. 6(a-c), cont.

Companies operating in a similar environment and regulations should be considered to have life and salvage expectations within a reasonable range, irrespective of the number of customers.

c. FCG makes no claim either way. Instead, FCG's response is based upon the publicly-available orders addressing the depreciation studies of the aforementioned companies, which indicate that the approved lives were fully vetted by the Commission and therefore considered reasonable.

Respondent: Patricia Lee and Bety Maitre

FPSC EXH NO. 40
ADMITTED

INTERROGATORY NO. 7

7. **Depreciation**. For all accounts, fill in the table below for the retirements which occurred in the years 2021 through 2024. Provide this data in Excel, if possible. (If it is not possible to provide this information for all accounts, that does not relieve the requirement to provide the specific information requested in the table below for all accounts for which it is available.)

Account Name	Account Number (i.e. 380.10)	Installation Year (Vintage)	Type of Activity (i.e. Retirement)	Retirement Year (Activity Year, Transaction Year)	Dollar Amount

Company Response:

FCG objects to the extent that Florida's procedural rules do not require that a respondent provide information in a particular format other than that which it exists. Notwithstanding and without waiving this objection, FCG hereby responds as follows:

The Aged Retirements on Schedule F 2021 through F 2024 of the Depreciation Study Workbook provide the requested retirement data for each account by year. The data has been compiled into the format shown above. Please see Attachment OPC ROG 2-7, Retirements.

INTERROGATORY NO. 8(a-b)

8. **Depreciation.** In the prior FCG rate case proceeding, Docket No. 20220069-GU ("prior case"), pages 64 and 65 of FCG Exhibit NWA-1 show that the FCG witness had done an actuarial life analysis for Services (Account 380.10 and 380.20) using aged data for the years ending 2020.

Also, on pages 37 through 60 of FCG Attachment A, 2025 Depreciation Study of Florida City Gas, FGC has shown that for 2021-2024, FCG has the aged data (retirement amounts by year of installation (vintage) needed to add the recent years and do an actuarial life analysis.

a. Provide an Excel data file, which includes the life data file used in Docket No. 20220069-GU that includes data through 2020, and includes the aged data for each account for the years 2021-2024.

This Excel data file should include at least the following information:

Account Name	Account Number (i.e. 380.10)	Installation Year (Vintage)	Type of Activity (i.e. Retirement)	Retirement Year (Activity Year, Transaction Year)	Dollar Amount

b. Did FCG or anyone working with FCG, prepare an aged data file which included the aged data for any years after 2020? If the response is "yes," identify each such file.

FPSC EXH NO. 40

INTERROGATORY NO.8(a-b)

Company Response:

a. FCG objects to the extent that Florida's procedural rules do not require that a respondent provide information in a particular format other than that which it already exists. Notwithstanding and without waiving this objection, FCG hereby responds as follows: Please see Attachment OPC ROG 2-8a for FCG's Service Life Data through 2024. The data through 2020 was provided by FPL.

b. Yes. The Study's Workbook contains aged retirements on Schedule F, aged plant balances as of 1/1/2025 on Schedules H-J, and aged plant history on Schedule O.

Respondent: Patricia Lee and Bety Maitre

TRANSACTION CODE DESCRIPTIONS

Code	Description
0	Regular Retirement. All retirements from plant which occur in the course of normal operations for causes that are to be covered by depreciation accruals. Typically, these include all causes other than those listed below.
1	Reimbursed Retirement. Retirement for which the Company received payment approximating or exceeding the depreciated original cost of the property, and such payment was recorded as a credit to the depreciation reserve account. Reimbursed retirements are usually related to extraordinary circumstances such as fire or other accidents for which the loss is covered by insurance, and to property moved or abandoned due to the requirements or requests of outside parties, for which the Company is reimbursed.
2	Sale. Transfer of ownership of property for which the Company received payment approximating or exceeding the depreciated original cost, and the property would not have been retired at or near that time if the sale had not occurred. Sales are generally related to circumstances in which the property has not actually been retired, but continues in public service following the transaction. Sales in lieu of abandonment are classified as regular retirements.
3	Transfer. Transfer of property between accounts or property groups. Use for both transfers-in and transfers-out, and for intraaccount transfers.
4	Beginning-of-Interval Transfer. Transfer of property between accounts or property groups that is to be considered as occurring at the beginning rather than the end of the age interval. Includes major transfers of property into the account or property group, such as to initiate an account or to substantially increase the size of an existing account.
5	Acquisition. Purchase, trade, or similar transaction where property previously in public service was acquired.
6	Adjustment. Used for control purposes in Plant Accounting data, and for adjustments, special appropriations, or transfers to or from the Depreciation Reserve account in Cost of Removal and Salvage data.
7	Outlier Retirement. A retirement that occurs under unusual circumstances such that the analyst deems it appropriate that it be excluded from the retirements used in the service life or salvage study.
8	Ending Balance. The balance of plant in service as of December 31 of the most recent year included in the Experience Band, or as of a specific calculation date.
9	Beginning Balance. The balance of plant in service as of December 31 of the year preceding the first year included in the Experience Band.
9	Gross Addition. Placements of plant in service as replacements of plant retired or as additions to plant in service.

Note: Corrections should be assigned the same code as the transaction being corrected.
