Comment: This is Linda Sileo 218 Sanders LaneLady Lake FL 32159,

Sun community want to raise our water 400% is crazy we are on a fixed budget. I'd like to see the break down of why there are 17 common area's we are paying for and paying for watering new homes and every time a pipe breaks we have to pay. I ran a business and when my equipment broke it was on me not my customers. We pay lot rent but have to pay a pass on tax and pay for water and sewer, fire and trash, that can't be told what the break down is or see what else we are paying for!!!

I believe and not sure over 30 percent of water usage is theirs, new construction, common ground, and golf course. Not to mention it's their own wells. Which should be cheaper than piped in.

Before they raise rates , from a comparison of other sources. They should have to disclose their own usage and cost of operation of the wells.

Not to. Mention our irrigation doesn't go to the sewer and is improvement to their property that they get the benefit. And a captive monopoly.

In short we should get a reduction not an increase on all amenities and taxes with each new resident.

Maybe Randy Fines office can be contacted for elderly abuse as well as the public commission.

Let's expose everything!

Hopefully these thoughts help. And someone can help do some research to add to this for the meeting!
