[Yahoo Mail: Search, Organize, writing in regards to proposed water rate increase which is going to adversely affect most of the senior residents who reside in this 55 plus community. First water meters are not read at residents. There is no reg. Inspections of for monitoring of meters.](#)

The oct 7.2025 audit identified incomplete records ,unsupported plant entries and revenue reporting issues. EUW unaccounted for water in excess of 10% margin for unaccounted water..

Is the restaurant and golf course barn using water on residents dime? Who pays for clubhouse water and watering the softball field, and common areas.. What does our lot rent pay for that keeps going up and amenities are not fixed or repaired

Seems rather cruel to have water increase average of \$95 a month when our social security only went \$50 average household

We who worked hard all our lives to retire are being given the choice between water and food

Thank you for your consideration on this issue\_
