I am writing in regards to proposed %400 water rate increase. Water oaks country club is a sun community .they have not provided information regarding where 17% of water is "unaccounted " for .water meters are not ready at residents . We would like to know how you expect people on social security to pay for an increase this high..from around \$15 a month to \$100 or more...should we not eat so we can take a shower?

Who pays the water bill for golf cart barn washing golf carts, and the restaurant dishes of the community shower s at pools certainly should be able to prove resident s are not footing the bill on top of rent and broken water line every month
