Dear Florida Public Service Commission Clerk

I am writing in regards to the proposed water rate increase Docket no. 20250088-WU I am opposed to this proposed water increase. The majority of seniors living in this community are on a fixed income, and this will create a financial hardship to those.

After reading the report I feel there is a lot of inaccurate information. It states that 17 general customers were not charged and it does not verify who they are and that was a significant loss of revenue. I think we deserve to have a more thorough report that shows where this money is going to, and those who reside here should not be paying for those 17 general customers who are not identified. Please reconsider this proposal after doing a more thorough investigation of who is not paying. We urge the commission to reject or reduce the proposed increase for residence of Water Oak.

Respectfully
Sharon Salko
