Comments:

I would like to comment on the rate increase to charge my EV at FPL Evolution charging stations. As of 01/01/2026 the kWh rate increased by 50% from \$0.30 to \$0.45 per kWh. This is very shocking that a 50% rate was approved by the PSC. I am not sure what argument the commission heard from FPL to approve such an insane rate. I don't see the commission working to protect the citizens of the state when such an increase is approved.
