In opposition to proposed water rate hikes. These numbers are just insane for several reasons. Number one sun communities really doesn't know who's paying and who isn't as 40% of users are unidentified. Next at our HOA meeting last night, Several hundred water meters are either incorrect or just don't work. Several people said they contacted administration and years still nothing done about it. So looks like the water used is not fairly paid by everyone, just a select few. I took one of my water bills from August when I use more. IT was \$84. Per new insane numbers it would be \$527. OVER 500%!!!! increase. We already got a rent hike and now this? The water usage by the corporation here should not be added to the residents. Its bad enough we pay sewer bills on water we use for the lawns. It seems a lot of water main breaks in here. Its SO sad to see such a wonderful community have to get stressed out not knowing if soon they will not be able to afford their homes by the corporate greed in our society since the pandemic. We REALLY need the public service commission to question all these holes in sun's numbers. Also if sun put in for a rate increase in June, why are we only getting the letters now a few days before your meetings? We were told hundreds are waiting for new water meters to be installed which just adds to us residents who do pay fully for our use. Summary = people can not afford such a HUGE increase and get Sun communities to start showing

what all their expenses as we will get after Management to correct all the faulty meters so we can all pay a fair share. Thank you for your assistance in this HUGE injustice.
