Comment: As a couple in our 80's, we find it extremely hard to survive sometimes on what we have. Social security is stretched a long way. We cannot afford to play golf here or even partake of the restaurant Sun provides. Now, to add to the expenses the powers that be would like to impose an outrageous increase to our water and sewer.

New homes are being built, requiring water to keep their lawns lovely although no one resides in them yet as they are unsold. If they walk our property again to assess how our maintenance of their property rented to us for \$800+ a month looks (after imposing these extreme rates) they would tell us it needs to be watered. Just how are we to afford this ??

Please give us a break here. We are all proud of our properties but there is a limit to what we could afford.

Any or all help we can get would be greatly appreciated. As taxpayers and voters, let us believe our voices are heard.
