Enough is enough! The proposed water rate increase is absurd. So many residents here are on tight budgets, with the inflation rate being what it is and rent increases, many people here struggle with daily needs, now this? Since we came here in 2012, rent has gone up to almost double what it was, free water has been taken away, and trash service is now only once a week. We were told back then that increases would be minimal. Oh wait, let's not forget this pass through tax that has maybe tripled what it used to be. We have many water main breaks here that just seem to have band-aids put on the problem. If this increase goes through, it will be an extreme hardship on ourselves along with other residents here that live off of social security benefits. This is forcing a lot of people to sell and find other places to live ( which is really hard if you are a senior and on a strict budget)Please reconsider this proposal. Thank you, Ray & Karen Przybysz
