RE: Docket No. 20250108-WS

To Whom It May Concern:

I have lived at Sunlake Estates for 35 years and have seen many changes take place, some good and some bad. One of the worst appears to be the proposed increase in water rates.

Many of our residents are living on their Social Security and with all of the other increases, this proposed water increase will certainly put an extra burden on many of us.

We have many water breaks, some of them every week, and following that we have no water for several hours.

I sincerely hope that you will re-consider this proposal and give us Seniors a break so that we can enjoy our last years here at Sunlake.

Thank you for your consideration in this matter.

Respectfully,

Peggie Pilker
