Attachments: Water Oak Gen Customers - PSC Request Response 4.22.26.xls; Common Area Meters list 5-07-26.pdf

Good afternoon Mr. McGinn,

The information we are after pertains specifically to the list of customers that we received from you on April 22, 2026. I have attached a copy of the attachment you sent us to this email. After reviewing the information you sent to us yesterday, it appears only six of the general service customers were on the April 22 list and are included in the data (9004A, 9010A, 9010B, 9013, 9014, and 9019). Attached to this email is a copy of the Common Area meters list with checks next to the meters that we have data for. Please submit the remaining billing data for the meters that we do not have data for.

Thank you.

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

The first line is a common area so I am confused about this assessment, and would offer that the general service customers being served are included.

I will reach out to the utility to confirm, but I believe this is every meter on the property.

Mr. McGinn,

Thank you so much for the consumption data. However, based on our review, it appears that the data includes residential customers and only seven general service customers. On April 22, 2026, per staff's request, you provided an updated list of general service customers and the meter sizes. The consumption data does not include the updated general service customers. Please provide the 12-month consumption data for the general service customers provided to our staff via email on April 22 asap. Thank You!

Good afternoon,

Sorry for the delay, please find the test year consumption data for Water Oak. Note that the usage is in thousandths in certain columns and a trailing zero may need to be added to obtain the correct gallonage after multiplying by 1,000 as the utility's program will drop it during its conversion process.
