Comment: I really hope this letter does not fall on deaf ears. Many assume that there is nothing we as a community can do to stop or slow down this increase. The majority of residents here are on a very tight budget. Water is crucial in every day life for cleaning, washing, bathing, cooking, etc. please, please don't allow this high of an increase to just go through. Most already conserve as much as we can. It almost seems like extortion to mandate watering our lawn in the prospectus and then double or triple the water rate. Sun bought an aging park whose infrastructure is older. It should not fall on the residents to pay the upkeep of the park when lot rents are increased every year, it's over \$850 a month now. There is already a base rate to cover the upkeep. There is plenty of funds coming in to cover those costs as well as water usage. My self and all of our community beg of you to consider this when making a decision. A small increase would be understandable, not this exorbitant increase proposed.
