Tallahassee, FL 32399-0850  
Attn: Daniel Dose, Senior Attorney

Re: Docket 20250038-WS – Petition for an acquisition adjustment for a non-viable utility, by CSWR-Florida Utility Operating Company, LLC.

Dear Mr. Dose:

CSWR-Florida Utility Operating Company, LLC (“CSWR-Florida”) submits the following response to Staff’s April 29, 2026 Fifth Data Request.

1. Please provide North Peninsula’s current DEP compliance status (In Compliance or Out of Compliance). If North Peninsula is out of compliance, please include an explanation of the Utility’s current and/or planned activities to restore compliance.

**Response: North Peninsula’s wastewater system is currently out of compliance with the Florida Department of Environmental Protection (FDEP). CSWR-Florida examined two long-term solutions to restore compliance: 1) connection to the City of Ormond Beach wastewater treatment system; and 2) total plant replacement. Following further evaluation, CSWR-Florida has determined that replacement of the existing plant is the most viable and cost-effective solution. Accordingly, CSWR-Florida has contracted a third-party engineering firm, Kimley-Horn, to design a new wastewater treatment facility.**
