STAFF'S FIRST DATA REQUEST

via email

Re: Docket No. 20260051-EI - Petition for approval of revisions to underground residential differential, underground commercial differential, and contribution-in-aid-of-construction tariffs, by Florida Power & Light Company.

Dear Mr. Wright:

By this letter, the Commission staff requests that Florida Power & Light Company (FPL) provide responses to the following data requests:

1. Please describe in detail the changes regarding labor and material costs for overhead and underground construction. In your response, include the approximate percentage of increases or decreases.
2. Referring to Appendix 4, Thirty-Ninth Revised Tariff Sheet No. 6.120 and Thirty-Sixth Revised Tariff Sheet No. 6.130, please provide a detailed explanation for the price increases in Section 10.4.2 and 10.5.4 (a-d).
3. Please describe the overhead and underground activities that are performed by in-house vs. contract employees. If this is a change from 2023, please describe any changes and provide the cost impact for the low and high density differentials.
4. Please discuss any changes in the assumptions (inflation rate, discount rate, book life) between the calculation of non-storm and storm operational costs filed in the instant petition and the last approved calculation.
5. Please discuss any significant changes in the non-storm and storm operation costs, such as recent hurricane events, that impacted the costs filed in the instant petition.
6. For this question, please refer to Appendix 1.2, Operational Costs Differential for Low Density (Exhibit VIII), High Density (Exhibit XVI), and Meter Pedestal (Exhibit XXIV). Please provide the excel spreadsheet, with formulas intact, for

each and also include any work papers used to develop the operational costs differential for each.

7. Regarding the credits provided to applicant's shown in Section 10.4.3, please discuss the reasons for the increase in the credits.
8. Please explain why the CIAC tariff changes were included as part of this docket.
9. Please explain whether the proposed changes to the CIAC tariffs are already in effect in practice or are the proposed tariffs introducing changes to the CIAC process prospectively.
10. Please refer to Paragraph 26 of the petition for the following question. Please explain how the deposit amounts required for a binding cost estimate under URD Tariff Sheet No. 6.200 and UCD Tariff Sheet No. 6.310 were determined. Please provide any calculations in excel format with formulas unlocked.

Please file all responses electronically no later than May 29, 2026, through the Commission's website at www.floridapsc.com, by selecting the Clerk's Office tab and Electronic Filing Web Form. *In addition, please email the filed response to discovery-gcl@psc.state.fl.us.*

Please feel free to call me at (850) 413-6199 if you have any questions.

Sincerely,

/s/ Major R. Thompson
