RE: CONFIDENTIALITY OF CERTAIN INFORMATION
DOCKET NO: 20260020-EI DOCUMENT NO: 01959-2026
DESCRIPTION: FPL (Cox) - (CONFIDENTIAL) Information contained in responses to staff's 3rd set of interrogatories (Nos. 33 and 38).
SOURCE: **Florida Power & Light Company**

On April 1, 2026, Florida Power & Light Company (FPL or Utility) filed a request for confidential treatment of Document No. 01959-2026. This document contains the Utility's responses to staff's third set of interrogatories (ROGs). This review specifically addresses ROG No. 33, which discusses the system impact of certain contingencies, and the attachment to ROG No. 38, which has the results of certain contingency analyses conducted by FPL.

FPL contends that the information constitutes proprietary and confidential business information entitled to protection under Section 366.093(3)(c), Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code. FPL asserts that the information at issue relates to security measures, systems, or procedures.

Staff has reviewed FPL's confidentiality request. In regard to ROG No. 33, staff concurs with FPL that the nature of the information meets the requirements set forth by Section 366.093(3)(c), F.S., whereby disclosure of the information would result in harm to the Utility's assets and thus its ability to serve ratepayers. Therefore, staff recommends the request by FPL for confidential classification of these portions of Document No. 01959-2026 be approved.

The results of the contingency analyses in the attachment to ROG No. 38, contained in rows 4 through 8 of the attachment, also fall within the bounds of proprietary confidential business information. Release of this information could result in harm to the Utility's assets and thus its ability to serve ratepayers. Therefore, staff recommends that confidentiality of Document No. 01959-2026 be granted in relation to rows 4 through 8 of the attachment to ROG No. 38 only. However, it is unclear how disclosure of the remaining information contained in the document would result in harm to FPL's assets. Thus, confidential classification of the remaining information is unwarranted.

The above confidential material was filed along with a request for confidential classification. Please complete the following form by checking all applicable information and forward it to the attorney assigned to the docket, along with a brief memorandum supporting your recommendation.

- The document(s) is (are), in fact, what the utility asserts it (them) to be.
 The utility has provided enough details to perform a reasoned analysis of its request.
 The material has been received incident to an inquiry.
 The material is confidential business information because it includes:
 (a) Trade secrets;
 (b) Internal auditing controls and reports of internal auditors;
 (c) Security measures, systems, or procedures;
 (d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms;
 (e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of information;
 (f) Employee personnel information unrelated to compensation, duties, qualifications, or responsibilities;
 The material appears to be confidential in nature and harm to the company or its ratepayers will result from public disclosure.
 The material appears not to be confidential in nature.
 Portions of the material appear to be confidential in nature and are identified in the memorandum supporting this recommendation.
 The material is a periodic or recurring filing and each filing contains confidential information.
