**RE:** CONFIDENTIALITY OF CERTAIN INFORMATION

DOCKET NO: 20260020-EI DOCUMENT NO: 02125-2026

DESCRIPTION: FPL (Cox) - (CONFIDENTIAL) Certain highlighted information contained in response to staff's 3rd set of interrogatories, No. 38 supplemental.

SOURCE: Florida Power & Light Company

---

On April 10, 2026, Florida Power & Light Company (FPL or Utility) filed a request for confidential treatment of Document No. 02125-2026. This document contains a supplemental response to FPL's response to staff's third set of interrogatories (ROGs). Specifically, it includes the supplemental response to ROG No. 38, which contains the results of contingency analyses conducted by FPL.

FPL contends that the information constitutes proprietary and confidential business information entitled to protection under Section 366.093(3)(c), Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code. FPL asserts that the information at issue relates to security measures, systems, or procedures.

Staff has reviewed FPL's confidentiality request. The results of the contingency analyses contained in both pages of the supplemental response, which can be found in rows 4 through 8 of each page, fall within the bounds of proprietary confidential business information. Release of this information could result in harm to the Utility's assets and thus its ability to serve ratepayers. Therefore, staff recommends that confidentiality of Document No. 02125-2026 be granted in relation to rows 4 through 8 of each page of the supplemental response only. However, it is unclear how disclosure of the remaining information contained in the document would result in harm to FPL's assets. Thus, confidential classification of the remaining information is unwarranted.
