3

Docket No. 090505-EI – Review of replacement fuel costs associated with the February 26, 2008 outage on Florida Power & Light Company's electrical system. (Deferred from the November 9, 2010 Commission Conference.)

Critical Date(s): None

Commissioners Assigned: All Commissioners

Prehearing Officer: Skop

Staff: GCL: Bennett

ECR: Lee, Roberts

RAD: Graves, Matthews

(Oral Argument Not Requested. Participation at the Discretion of the Commission. Pursuant to Section 350.01, F.S., only Commissioners who voted on the final order may vote on reconsideration.)

Issue 1: Should the Commission reconsider its decision to credit FPL with 27 hours of time associated with the repair of the rod position indication system at Turkey Point Unit 3?

Recommendation: No. The Commission considered and evaluated all the record evidence in reaching its conclusion that the incremental time associated with the repair of the rod position indication system was 27 hours and not 126 hours. Because the Commission did not overlook or fail to consider the evidence in the record, FPL's motion for reconsideration should be denied.

Issue 2: Should the Commission reconsider its decision to require Florida Power & Light Company to refund the full 107 hours of outage at Turkey Point Unit 4, without giving credit for the time required to replace and test a malfunctioning relay in at the reverse power protection system?

Recommendation: No. The Commission did not overlook or fail to consider Order No. 23232, issued July 20, 1990, in Docket No. 090001-EI (Order No. 23232), in requiring a refund for the full outage time at Turkey Point Unit 4. The repair for the relay was not a planned outage. In Order No. 23232, a portion of the outage coincided with a planned outage.

Issue 3: Should the Commission make any corrections to the refund amount established in Order No. PSC-10-0381-FOF-EI?

Recommendation: No. The Commission did not overlook or fail to consider the factual and legal issues raised by FPL in reaching the Commission's decision to require a refund of \$13,854,054 to ratepayers as a result of the February 26, 2008 outage.

Issue 4: Should this docket be closed?

Recommendation: Yes. Upon expiration of the time for appeal, if no appeal has been taken, this docket should be closed.

Recommendation: No, this docket should not be closed.

Docket No. 100055-TI – Acknowledgment of registration as intrastate interexchange telecommunications company by Gaucho Sat. U.S.A Inc.

Critical Date(s): None

Commissioners Assigned: All Commissioners

Prehearing Officer: Administrative

Staff: RAD: Earnhart

GCL: McKay

Issue 1: Should the Commission, on its own motion, remove Gaucho Sat. U.S.A Inc.'s name from the IXC register, and cancel its price schedule and Registration No. TK284?

Recommendation: Yes, the Commission, on its own motion, should remove Gaucho Sat. U.S.A Inc.'s name from the IXC register, and cancel its price schedule and Registration No. TK284.

Issue 2: Should this docket be closed?

Recommendation: Staff recommends that the Order issued from this recommendation will become final and effective upon issuance of a Consummating Order, unless a person whose substantial interests are affected by the Commission's decision files a protest that identifies with specificity the issues in dispute, in the form provided by Rule 28-106.201, F.A.C., within 21 days of the issuance of the Proposed Agency Action Order. As provided by Section 120.80(13)(b), F.S., any issues not in dispute should be deemed stipulated. If the company fails to timely file a protest and to request a Section 120.57, F.S., hearing, the facts should be deemed admitted and the right to a hearing waived. If the company's IXC Registration No. TK284 and price schedule is cancelled and its name removed from the register in accordance with the Commission's Order from this recommendation, the company should be required to immediately cease and desist providing intrastate interexchange telecommunications services in Florida. If there is no protest, this docket should be closed upon issuance of the Consummating Order.

CASE

6**PAA

Docket No. 100159-EG – Petition for approval of demand-side management plan of Tampa Electric Company.

Critical Date(s): None

Commissioners Assigned: All Commissioners

Prehearing Officer: Administrative

Staff: RAD: Ellis, Brown, Clemence, Garl, Lewis

GCL: Fleming, Saylor

Issue 1: Does TECO's revised Demand-Side Management Plan satisfy the Company's numeric conservation goals set by the Commission in Order No. PSC-09-0855-FOF-EG?

Recommendation: Yes. TECO's revised DSM Plan meets or exceeds the numeric conservation goals set by the Commission, is cost-effective, and the rate impact associated with the revised DSM Plan is relatively small compared to the increase in demand and energy savings projected.

The Commission should approve the programs contained in TECO's revised Demand-Side Management Plan to allow TECO to file for cost recovery. However, TECO must still demonstrate, during the Energy Conservation Cost Recovery (ECCR) clause proceeding, that expenditures in executing its DSM Plan are reasonable and prudent. TECO should be required to file program standards for administrative approval within 30 days of the Consummating Order in this docket.

Issue 2: Should this docket be closed?

Recommendation: Yes. If no person whose substantial interests are affected by the proposed agency action issue files a protest within 21 days of the issuance of the Order, a Consummating Order will be issued. If the Commission approves any programs, the programs should become effective on the date of the Consummating Order. If a protest is filed within 21 days of the issuance of the Order, the programs should not be implemented until after the resolution of the protest. However, the docket should remain open for staff's verification that the program standards have been filed by the Utility and approved by staff. When the PAA issues are final and the program standards have been approved, this docket may be closed administratively.

CASE

7**PAA

Docket No. 100155-EG – Petition for approval of demand-side management plan of Florida Power & Light Company. (Deferred from the November 9, 2010, Commission Conference.)

Critical Date(s): None

Commissioners Assigned: All Commissioners

Prehearing Officer: Administrative

Staff: RAD: Garl, Brown, Harlow, Lewis

GCL: Fleming, Saylor

Issue 1: Does FPL's proposed 2010 Demand-Side Management (DSM) Plan satisfy the Company's numeric conservation goals set by the Commission in Order No. PSC-09-0855-FOF-EG?

Recommendation: No. FPL's proposed DSM Plan fails to meet its residential goals in at least one category for eight years. Similarly, the Company's Plan does not meet all the annual commercial/industrial goals for eight years of the ten-year period. FPL's failure to meet its annual conservation goals may result in financial penalties or other appropriate action.

Consistent with Section 366.82(7), F.S., staff recommends that FPL file specific program modifications or additions that are needed for the 2010 DSM Plan to be in compliance with Order No. PSC-09-0855-FOF-EG within 30 days of the Commission's Order in this docket. The compliance filing should not include savings associated with FPL's solar pilot programs.

Issue 2: Are the programs contained in FPL's proposed 2010 DSM Plan cost-effective as this criterion is used in Commission Order No. PSC-09-0855-FOF-EG?

Recommendation: Yes. All programs in FPL's proposed 2010 DSM Plan pass the E-TRC and Participants tests. Audits, Pilot Programs, and Research & Development Programs are not included in this evaluation because they are not required to pass cost-effectiveness testing. FPL should be required to file program standards within 30 days of the Commission's Order in this docket.

The Commission should approve cost-effective programs to allow FPL to file for cost recovery. However, FPL must still demonstrate, during the cost recovery proceeding, that expenditures in executing its DSM Plan were reasonable and prudent. In addition, the Commission will evaluate FPL's compliance filing and make a final determination at that time regarding the cost-effectiveness of any modified or new programs.

CASE

7**PAA

Docket No. 100155-EG – Petition for approval of demand-side management plan of Florida Power & Light Company. (Deferred from the November 9, 2010 Commission Conference.)

(Continued from previous page)

Issue 3: Does FPL’s proposed 2010 DSM Plan include pilot programs that encourage the development of solar water heating and solar PV technologies consistent with Commission Order No. PSC-09-0855-FOF-EG?

Recommendation: Yes. The cost of the proposed pilot programs is within the annual expenditure cap of \$15,536,870 specified by Commission Order No. PSC-09-0855-FOF-EG. However, the allocation of funds to: (1) solar thermal vs. solar PV, (2) private customers vs. public institutions, and (3) low-income residential varies widely among the investor-owned utilities. If the Commission desires to have more uniformity among the IOUs’ programs, then the Commission should initiate public workshops to explore that issue further.

Issue 4: Do any of the programs in FPL’s proposed Demand-Side Management Plan have an undue impact on the costs passed on to customers?

Recommendation: No. The proposed program costs are not undue because the increase in program costs correlates with the increase in goals. The Commission should evaluate the Company’s compliance filing and make a final determination in the ECCR proceedings regarding the appropriateness of incentive levels.

Issue 5: Should this docket be closed?

Recommendation: No. This docket should remain open for FPL to refile its demand-side management plan within 30 days from the date of this Order. In addition, if the Commission approves any programs, the programs should become effective on the date of the Consummating Order. If a protest is filed within 21 days of the issuance of the Order, the programs should not be implemented until after the resolution of the protest.

(Participation is limited to Commissioners and Staff.)

Issue 1: Should Progress Energy Florida, Inc., be permitted to collect through the fuel clause, amounts related to replacement power due to the extended outage at Crystal River Unit 3 prior to the Commission's determination of the prudence of such costs in a separate docket?

Recommendation: Yes, PEF should be permitted to collect, subject to refund, replacement power costs due to the extended outage at CR3 prior to the Commission's determination of the prudence of such costs in a separate docket. These costs should be incorporated into the calculation of the 2011 fuel factor. The prudence of such costs will be analyzed in Docket No. 100437-EI.

Issue 2: Should this docket be closed?

Recommendation: No. The Fuel and Purchased Power Cost Recovery Clause docket is an on-going docket and should remain open.

Critical Date(s): None

Commissioners Assigned: All Commissioners

Staff: ECR: Franklin, Matlock, Draper, A. Roberts

GCL: Bennett, Saylor

Issue 1: Should the Commission approve the fuel factors in PEF's petition for mid-course correction to its 2011 fuel and purchased power cost recovery factors?

Recommendation: No. Staff recommends the Commission not approve the fuel factors in PEF's petition for mid-course correction, but instead keep in place the 2011 fuel factors approved on November 2, 2010. Staff notes the Commission will make a separate decision regarding the recovery of CR3 replacement power costs. The Commission's November vote included factors to be applied if the CR3 replacement power costs are either included or excluded. If the Commission decides to approve a partial recovery of CR3 replacement power costs in 2011, the appropriate fuel factors are displayed in Attachment A of staff's memorandum dated November 19, 2010.

GCL: Young

Issue 1: Should FPL's request to increase its base rates by \$1,952,620 for the 2010 EPU project modifications at the St. Lucie and Turkey Point units be approved?

Recommendation: Yes. FPL's request to increase its base rates by \$1,952,620 for the 2010 EPU project modifications at the St. Lucie and Turkey Point units should be approved. This approval should be subject to true-up and revision based on the final review of the 2010 modification expenditures in Docket No. 100009-EI, Nuclear Cost Recovery Clause.

Issue 2: Should FPL's request to increase its base rates by \$198,307 for the 5-year amortization of the EPU assets that are being retired during 2010 be approved?

Recommendation: Yes. FPL's request to increase its base rates by \$198,307 for the 5-year amortization of the EPU assets that are being retired during 2010 should be approved.

Issue 3: Should FPL's request to increase its base rates by \$48,335 for a true-up of the 2010 base rate revenue requirement for the PSL2 turbine gantry crane be approved?

Recommendation: Yes. FPL's request to increase its base rates by \$48,335 for a true-up of the 2010 base rate revenue requirement for the PSL2 turbine gantry crane should be approved.

Issue 4: What is the appropriate effective date of FPL's revised base rates?

Recommendation: If the Commission approves the staff recommendation in Issues 1, 2, and 3, the revised base rates should be implemented with the first billing cycle for 2011, which falls on January 3, 2011. Furthermore, FPL should file revised tariff sheets to implement the Commission vote in Issues 1, 2, and 3 for administrative approval by staff prior to their effective date.

Issue 3A: Does the Commission have the authority to require a “risk sharing” mechanism that would provide an incentive for a utility to complete a project within an appropriate, established cost threshold? If so, what action, if any, should the Commission take?

Recommendation: No. Section 366.93, F.S., expressly provides that a utility is entitled to recover all prudently incurred costs resulting from the construction of nuclear power plants. The statute does not set a dollar limit on the amount a utility can recover through the NCRC. Requiring a risk sharing mechanism exceeds the scope of the plain and expressed language and intent of the statute.

Commissioners Assigned: All Commissioners

Prehearing Officer: Graham

Staff: ECR: Fletcher, Cicchetti, Daniel, Davis, Maurey, Rieger
 GCL: Jaeger

(Decision on Interim Rates. Participation is at the Discretion of the Commission.)

Issue 1: Should the Utility's proposed final water and wastewater rates be suspended?

Recommendation: Yes. Tradewinds' proposed final water and wastewater rates should be suspended.

Issue 2: Should an interim revenue increase be approved?

Recommendation: Yes. Tradewinds should be authorized to collect annual water and wastewater revenues as indicated below:

	<u>Adjusted Test Year Revenues</u>	<u>\$ Increase</u>	<u>Revenue Requirement</u>	<u>% Increase</u>
Water	\$123,343	\$75,669	\$199,011	61.35%
Wastewater	\$208,879	\$20,716	\$229,595	9.92%

Issue 3: What are the appropriate interim water and wastewater rates?

Recommendation: The water and wastewater service rates for Tradewinds in effect as of December 31, 2009, should be increased for water by 62.93 percent and for wastewater by 9.92 percent to generate the recommended revenue increase for the interim period. The approved rates should be effective for service rendered as of the stamped approval date on the tariff sheets, pursuant to Rule 25-30.475(1)(a), F.A.C. The rates should not be implemented until staff verifies that the tariff sheets are consistent with the Commission decision, the proposed customer notice is adequate, and the required security has been filed.
