Consent Agenda

A) Docket No. 110304-GU – Application for authorization to issue common stock, preferred stock and secured and/or unsecured debt, and to enter into agreements for interest rate swap products, equity products and other financial derivatives, and to exceed limitation placed on short-term borrowings in 2012, by Florida Division of Chesapeake Utilities Corporation.

The Company seeks authority to issue during calendar year 2012: up to 5,875,782 shares of Chesapeake common stock, up to 1,000,000 shares of Chesapeake preferred stock, up to \$120 million in secured and/or unsecured debt, to enter into agreements up to \$40 million in Interest Rate Swap Products Equity Products and other financial derivatives, and to issue short-term obligations in an amount not to exceed \$100 million.

Chesapeake Utilities Corporation allocates funds to the Florida Division, Florida Public Utilities, and Indiantown Gas Company on an as-needed basis, although in no event would such allocations exceed 75 percent of the proposed equity securities (common stock and preferred stock), long-term debt, short-term debt, interest rate swap products, equity products, and financial derivatives.

Recommendation: The Commission should approve the action requested in the docket referenced above. For monitoring purposes, this docket should remain open until April 26, 2013, to allow the Company time to file the required Consummation Report.

CASE

5**PAA

Docket No. 110133-GU – Petition for approval of acquisition adjustment and recovery of regulatory assets, and request for consolidation of regulatory filings and records of Florida Public Utilities Company and Florida Division of Chesapeake Utilities Corporation. (Deferred from the November 22, 2011 Commission Conference, revised recommendation filed.)

Critical Date(s): None

Commissioners Assigned: All Commissioners

Prehearing Officer: Brisé

Staff: ECR: Slemkewicz, Draper, Kaproth, Salnova, Springer

GCL: Young

Issue 1: Has Chesapeake complied with the reporting requirements of Order No. PSC-10-0029-PAA-GU?

Recommendation: Yes. Chesapeake has complied with the reporting requirements of Order No. PSC-10-0029-PAA-GU.

Issue 2: Should the Commission accept Chesapeake's proposal to amortize the \$34,192,493 positive acquisition adjustment over a 30 year period, beginning November 2009?

Recommendation: Yes. Chesapeake should be allowed to record the \$34,192,493 purchase price premium as a positive acquisition adjustment to be amortized over a 30-year period beginning November 2009. The positive acquisition adjustment should be recorded in Account 114 – Gas Plant Acquisition Adjustments and the amortization expense should be recorded in Account 406 – Amortization of Gas Plant Acquisition Adjustment. The level of the actual cost savings supporting Chesapeake's request should be subject to review in FPUC's next rate case proceeding. In FPUC's next rate proceeding, if it is determined that any of the cost savings no longer exist, the acquisition adjustment may be partially or totally removed as deemed appropriate by the Commission. FPUC should file its earnings surveillance reports with and without the effect of the acquisition adjustment. Chesapeake is not seeking approval of an acquisition adjustment associated with the Indiantown Gas Company transaction at this time.

Issue 3: Should the Commission accept Chesapeake's proposal to amortize, above the line, the regulatory assets established for transaction and transition costs of \$2,207,158 over a five year period, beginning November 2009?

Recommendation: Yes. Transaction and transition costs should be recorded as a regulatory asset and amortized over five years beginning November 2009. The amounts should be \$1,650,983 and \$556,175, respectively, for a total of \$2,207,158. The Commission should find that the approval to record the regulatory asset for accounting purposes does not limit the Commission's ability to review the amounts for reasonableness now and in future rate proceedings.

CASE

5**PAA

Docket No. 110133-GU – Petition for approval of acquisition adjustment and recovery of regulatory assets, and request for consolidation of regulatory filings and records of Florida Public Utilities Company and Florida Division of Chesapeake Utilities Corporation. (Deferred from the November 22, 2011 Commission Conference, revised recommendation filed.)

(Continued from previous page)

Issue 4: Should the Commission accept Chesapeake’s proposed use of the modified straight-line method to amortize the acquisition premium over 30 years and the regulatory assets over 5 years?

Recommendation: No, the unmodified straight-line amortization methodology should be used to amortize the acquisition adjustment and the transaction and transition costs.

Issue 5: Should the Commission accept Chesapeake’s proposal to consolidate the earnings surveillance reports and accounting records of the Florida Division of Chesapeake, the gas division of FPUC, and the FPUC - Indiantown Division with a combined midpoint return on equity of 10.85 percent?

Recommendation: No. Chesapeake should not be permitted to consolidate the earnings surveillance reports and accounting records of the three utilities until such time as the rates and tariffs are combined.

Issue 6: Should Chesapeake’s request to establish a combined benchmark methodology for FPUC and the Florida Division for the purpose of evaluating incremental cost increases in future rate proceedings be approved?

Recommendation: No. It is premature to establish a combined benchmark for the Florida Division and FPUC since the two utilities are not functioning as a single utility for regulatory purposes.

Issue 7: What is the amount, if any, of excess earnings for 2010 for the Florida Division?

Recommendation: The Florida Division does not have any excess earnings for 2010.

Issue 8: What is the amount, if any, of excess earnings for 2010 for the gas division of FPUC?

Recommendation: The gas division of FPUC does not have any excess earnings for 2010 based on the inclusion of the acquisition adjustment and the transaction and transition costs recommended in previous issues.

Issue 9: What is the appropriate disposition of the 2010 excess earnings, if any, for the Florida Division and the gas division of FPUC?

Recommendation: Depending on the level of any excess earnings, the appropriate disposition of any refund, with interest, would be a credit on the customers’ bills or a refund through the Purchased Gas Adjustment (PGA) cost recovery clause. Interest should be calculated using the commercial paper rate as provided in Rule 25-7.091(4), F.A.C. This issue is moot if the recommendations in Issues 7 and 8 are approved.
