Energy Action Month

October was an exciting month at the Florida Public Service Commission (PSC), as we celebrated *National Energy Action Month*.

The PSC teamed up with the City of Tallahassee and S.A.I.L. High School students to produce an original play, *Turn It On; Turn It Off*. The play taught students how to conserve energy during October's *Energy Action Month* and *Public Power Week*.

Throughout the month, the PSC participated in events highlighting how small lifestyle changes can **reduce** your energy consumption and **save** you money.
