

Florida Hosts SEARUC Meeting in June

Growing the Economy

One Kwh/therm/gallon/call at a Time!

In his last official duty as SEARUC President, Commissioner Ronald Brisé recently hosted public utility commissioners from 11 South-eastern states at the 2016 Southeastern Association of Regulatory Utility Commissioners (SEARUC) Annual Meeting in the beautiful town of Manalapan (in West Palm Beach). In the spirit of this year's theme, "Growing the

Economy," panel topics reflected an appreciation of the economic impact of today's regulatory policies and how to incorporate today's emerging technologies for the benefit of all stakeholders. Commissioner Brisé said the versatile program was relevant to the many complex issues facing regulators, and he was pleased to continue SEARUC's rich history of encouraging dynamic discussions among meeting participants.

Chairman Julie Brown and Commissioners Lisa Edgar, Art Graham, and Jimmy Patronis presided over panels on current and future utility industry practices that "Grow the Bottom Line" to benefit communities, businesses, and customers.
