## Preface

The PSC tracks consumer cases using a tracking tool known as the Consumer Activity Tracking System (CATS). There are two categories of consumer cases: Complaints and Information Requests. A Complaint is a form of case that involves a substantial unresolved objection regarding a regulated utility, as it relates to charges, facility operations, or the quality of the services rendered, the disposal of which requires an investigation and/or analysis by PSC staff. An Information Request is a form of case that involves providing facts, reference material or other data but does not involve a substantial unresolved objection by a consumer regarding a regulated utility.

It is the Commission's intent that disputes between regulated companies and their customers are resolved as quickly, effectively, and inexpensively as possible. To accomplish this, the Commission has adopted Rule 25-22.032, Florida Administrative Code, relating to the Commission's customer complaint handling procedure.

## Summary

There were **1,749** complaints logged against the utility companies for the month of December 2004. If the PSC staff believes that a violation of the Florida Administrative Code, company tariffs or policies occurred, the complaint is resolved as an apparent rule infraction. There were also **1,572** information requests logged by the PSC.

A total of **21** utility companies are participating in the Telephone Transfer-Connect option, as of December 31, 2004. Under this option, and with the caller's approval, a call to the PSC is directly transferred to the caller's utility. There were **927** calls transferred and logged into CATS during December 2004.

Refunds, savings and credits to consumers resulting from Commission action on behalf of consumers totaled **\$554,657** for the month.
