

SPECIAL REPORT

FEBRUARY 2001 NO. 17

Petition by
Florida Public Utilities Company
(Fernandina Beach Division in Nassau County)
For a Limited Proceeding to Increase Water Rates

Florida Public Utilities Company (FPUC or utility) is a class A utility providing electric, gas, and water service to various areas in Florida. The Fernandina Beach division in Nassau County furnishes water service to approximately 6,800 customers. On December 19, 2000, FPUC filed an application for a limited proceeding to increase its water rates with the Florida Public Service Commission (PSC or Commission).

In its application, the utility states that it is making significant capital improvements to the #3 Waterworks Plant. FPUC also is making additional related plant improvements and incurring associated direct expenses. These plant improvements and expenditures were not recovered in the most recent rate proceeding, Docket No. 990535-WU. FPUC has requested a limited proceeding to provide funding for these capital improvements and expenditures, and has requested a rate increase of 9.02% to recover these costs.

This limited proceeding is being processed under the PSC's "Proposed Agency Action" (PAA) procedure. Under the PAA process, the case will not be set for a formal Commission hearing unless a timely protest to the Commission's proposed action is filed.

The customer meeting listed on the right side of this report is being conducted in the utility's service area to hear and respond to customer comments on quality of service and the utility's proposed rate increase. In accordance with Florida Statutes, the PSC will consider the utility's quality of service and other matters in this case.

PSC staff is scheduled to make a recommendation to the Commission on March 22, 2001, and the Commission vote is scheduled for the April 3, 2001, Agenda Conference.
