OCTOBER 2000 NO. 18

Request for a rate increase by
City Gas Company of Florida

On August 25, 2000, City Gas Company of Florida (City Gas or the company) filed a petition for a permanent rate increase with the Florida Public Service Commission (PSC). In its application, City Gas states that its reason for the requested rate increase is because the rates set in its last rate case in 1996 failed to produce revenues sufficient to provide an adequate return on its investment. The company requests a permanent rate increase of \$7,181,988 which would produce a 7.88% overall rate of return.

Also in its application, City Gas states that it achieved an overall rate of return of 5.76% during the historical year ending September 30, 1999. A "test year" is the 12-month operating period the PSC uses in a utility rate case to evaluate the cost of service and the adequacy of the rates a utility is charging or proposing to charge its customers. Absent rate relief, the overall rate of return is expected to drop below 5.36% for the year ending September 30, 2000.

The current rate case is being processed under the PSC's "Proposed Agency Action" (PAA) procedure. Under the PAA process, the case will not be set for a formal hearing unless the Commission's decision on whether to grant the rate increase is protested.

The customer hearings listed on the right side of this report are being conducted in the utility's service area to hear and respond to customer comments on quality of service, rate structure and the utility's proposed rate increase. In accordance with Florida Statutes, the PSC will consider the utility's quality of service and other matters in this case.

PSC staff is scheduled to make a recommendation to the Commission on January 4, 2001, and the Commission vote on this matter is scheduled for the January 16, 2001, Agenda Conference.
