

SPECIAL REPORT

JULY 2001 NO. 22

Application to Add Territory in Lake County by **Florida Water Services Corporation**

Florida Water Services Corporation (FWSC) is Florida's largest investor-owned water and wastewater company, providing service to more than a half-million customers in over 120 communities throughout the state.

On November 3, 1999, FWSC filed an application with the Florida Public Service Commission (PSC) to amend Certificate No. 106-W in order to add water service territory in Lake County. FWSC's application involves providing water service to a new development in Lake County known as the Summit. The City of Groveland (the City) filed a protest to that application on November 24, 1999.

The City contends that it has a prior right to service the proposed territory and can provide the area with both water and wastewater service in a timely and adequate manner. The City asserts that extension of FWSC's certificate to include the proposed territory will constitute a duplication of its existing utility services and is prohibited by Section 367.045(5)(a), Florida Statutes. In addition, the City contends that its service is consistent with its Comprehensive Plan and the Joint Planning Area proposed by Lake County in Lake County's Comprehensive Plan. The City asserts that for these reasons, FWSC's application should be denied by the PSC.

FWSC asserts that it is already providing water service to the Palisades Country Club, which is adjacent to the proposed new development. FWSC states that it has a developer's agreement to serve this new development. FWSC contends that extension of its certificate to serve the new development would allow for full utilization of its existing Palisades system and would avoid duplication. FWSC contends that it can provide the necessary service in the most economical manner. FWSC denies that the City has an exclusive right to provide water service to the proposed territory. FWSC contends that service by the City would be more costly, would not meet the time frames needed by the developer and would result in unnecessary duplication of its Palisades system.

By Order No. PSC-01-0395-PCO-WU, issued February 16, 2001, public hearings have been scheduled for July 11-12, 2001. The customer hearings listed below are being conducted near the contested service area to give the PSC the opportunity to hear customer testimony regarding FWSC's application to expand its service territory in Lake County. Please be aware that customer testimony will be subject to cross-examination.

PSC staff is scheduled to make a recommendation to the Commission on September 20, 2001, and the Commission vote is scheduled for the October 2, 2001, Agenda Conference.
