

Florida Public Service Commission

SPECIAL REPORT

NOVEMBER 2001 NO. 26

Review of Florida Power Corporation's Earnings

In May of 2001, the Florida Public Service Commission (PSC, or Commission) initiated a review of the electric rates charged by Florida Power Corporation (FPC). The Commission also ordered FPC to collect approximately \$100 million of annual revenue subject to refund, pending the outcome of the review. Currently, a residential customer of FPC consuming 1000 kWh pays \$93.41.

FPC serves approximately 1.3 million customers in Central and North Florida. Its service area encompasses approximately 20,000 square miles, including the cities of St. Petersburg and Clearwater, as well as the rapidly growing area of Central Florida surrounding Orlando.

The PSC has scheduled four customer service hearings listed on the right side of this Special Report to provide customers the opportunity to comment on FPC's rates and services. In accordance with Florida Statutes, the PSC will consider the utility's quality of service and other matters in this case.

PSC staff is scheduled to make a recommendation to the Commission on May 13, 2002. The Commissioners are expected to vote on this matter at the May 24, 2002, Agenda Conference.
