Application for a Rate Increase in

Alachua, Brevard, Highlands, Lake, Lee, Marion, Orange, Palm Beach, Pasco, Polk, Putnam, Seminole, Sumter, Volusia, and Washington Counties by

Aqua Utilities Florida, Inc.

DOCKET NO. 060368-WS

On December 1, 2006, Aqua Utilities Florida, Inc. (AUF or utility) filed an application with the Florida Public Service Commission (Commission) for an increase in its water and wastewater rates. AUF provides water and wastewater service in 80 service areas (56 water and 24 wastewater systems) in 15 counties: Alachua, Brevard, Highlands, Lake, Lee, Marion, Orange, Palm Beach, Pasco, Polk, Putnam, Seminole, Sumter, Volusia, and Washington.

The utility is requesting rates to recover operating expenses on a going-forward basis and to generate a fair rate of return on its investment. In its application, AUF is requesting a total increase of \$4,249,358 for its water systems and \$3,048,935 for its wastewater systems. The utility is also requesting county-wide uniform rates for its systems in the respective counties. In addition, the utility requested interim rates. The Commission granted an interim rate increase on March 15, 2007.

In its filing, the utility is using a projected test year ending December 31, 2007. The test year is a 12-month period used in ratemaking proceedings to compute current levels of investment and income in order to determine the amount of revenue that will be required to allow the utility the opportunity to earn a fair return on its investment. The PSC staff recommends adjustments to test year data to properly reflect conditions in the future period for which the rates are being fixed.

As part of the process, the Commission has scheduled twelve customer service hearings throughout Florida. The service hearings give customers and other interested parties an opportunity to comment to the Public Service Commission on the quality of service the utility provides and the proposed rate increase. Customers may ask questions or make comments on other issues.

Customer comments, written and oral, will become part of the official record for this case and are taken into consideration to assist the Commissioners in reaching their decision. Utility customers are invited to give their feedback at the service hearings in this case. In accordance with Florida Statutes, the PSC will consider the utility's quality of service and other matters.

Detailed docket information is available on the PSC Web site at www.floridapsc.com. The Commissioners are expected to vote on the revenue requirement at the January 10, 2008, Special Agenda Conference and vote on the appropriate rates at the January 24, 2008 Special Agenda Conference.
