

Florida Public Service Commission

SPECIAL REPORT

JUNE 2002 NO. 14

Petition of Florida Division of
Chesapeake Utilities Corporation
**for Authority to Convert All Remaining Sales Customers to
Transportation Service and to Exit Merchant Function**

On March 28, 2002, Central Florida Gas Company (Central Florida or the company) filed a request with the Florida Public Service Commission (PSC or Commission) to convert its remaining retail sales customers to transportation service. Central Florida serves approximately 11,000 residential, commercial and industrial customers throughout central and north Florida. In 1985, Central Florida joined Chesapeake Utilities Corporation adding customers in the citrus industry, tourist attractions and construction. Central Florida has customer service centers in the cities of Winter Haven, Hernando, and St. Cloud, Florida.

Under Central Florida's proposal, the non-fuel base rates will continue to be paid for by customers at Central Florida's present rates. Charges for the natural gas itself (purchased gas adjustment) will be paid for at the rates of the selected supplier. Central Florida will serve as the billing agent for the customer's natural gas supplier and will continue to issue customers a single bill for both its transportation service and the natural gas itself.

In its request, the company cites its reasons for converting its remaining sales customers to transportation customers. Approximately 4 percent of the total throughput on the company's system is related to sales service, and the company states that it would be difficult to continue to provide sales service at competitive prices.

Also, the company states that its customers' gas supply needs would be best served by a gas marketer who has the ability to "pool" its remaining sales customers into a larger and more diversified gas supply portfolio. The company has proposed to transition its customers from sales customers to transportation through a three phase transition program.

The staff of the PSC has scheduled four customer meetings on June 25 and 26, 2002 in the utility's service area to provide customers the opportunity to express their views regarding Central Florida's request.

PSC staff is scheduled to make a recommendation to the Commission on August 8, 2002, and the Commission vote is scheduled for August 20, 2002.
