--	-----------------

\* Numbers may not appear to add correctly because the total is rounded to 4 decimal places. Assumes common transport.

\*\* ITS does not have an entrance facility rate element because of its arrangement with AT&T. ITS is no longer billing for AT&T; therefore mileage is 27 miles \* 27% = 7.29. ITS uses 10 miles in this calculation in order to be consistent with this model. ITS, effective 2/16/01, bills separately from AT&T and no longer bills access tandem charges for AT&T.

--	-----------------

\* Numbers may not appear to add correctly because the total is rounded to 4 decimal places. Northeast Florida concurs in AT&T's intrastate access tariffs, but some rates differ.

\*\* Northeast Florida does not have an entrance facility rate element because it subtends AT&T's tandem. In addition, the access tandem switching rate element is not shown because AT&T is the access tandem provider for Northeast Florida, and this function is performed and billed 100% by AT&T.
