Re: Demand Side Management Plan, 2019 FEECA Annual Report

Dear Mr. Coston:

Enclosed is JEA's 2019 FEECA annual report on Demand Side Management activities.

The data confirms that JEA has exceeded its FEECA goals for 2019; the attached summary contains the relevant details.

If you have any questions, please do not hesitate to contact me at (904) 665-7065.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Donald P. Wucker', with a long horizontal flourish extending to the right.

JEA

Demand Side Management (DSM) FEECA Annual Report for 2019

Public Service Commission (PSC) Goals

Sections 366.S0 through 366.S5, and 403.519, Florida Statutes (F.S.), are collectively known as the Florida Energy Efficiency and Conservation Act (FEECA). Section 366.82(2), (F.S.), requires the Florida PSC to adopt appropriate goals designed to increase the conservation of expensive resources, such as petroleum fuels, to reduce and control the growth rates of electric consumption and weather-sensitive peak demand.

In accordance with the FEECA sections noted above, JEA's goals were established in DOCKET NO. 130203-EM, ORDER NO. PSC-14-0696-FOF-EG, ISSUED December 16, 2014.

DSM Plan 2015 – 2024

Pursuant to Sections 366.81 and 366.82, F.S., Rule 25-17.0021, Florida Administrative Code (F.A.C.), JEA petitioned the Florida PSC to approve the DSM plan filed on March 16, 2015. Subsequently, JEA's plan was approved on August 11, 2015 under docket number: 150087-EG.

DSM Reporting Requirements

In accordance with Section 366.82 (10), F.S., Rule 25-17.0021(5), F.A.C., each utility shall submit an annual report by March 1 of each year summarizing its DSM plan and the total actual achieved results for its approved DSM plan in the preceding calendar year.

2017 Total Actual Achieved Results

JEA met PSC goals as established in DOCKET NO. 130203-EM, ORDER NO. PSC-14-0696-FOF-EG, ISSUED December 16, 2014.

JEA is submitting 2019 annual performance values for its non-RIM (i.e. not part of FEECA) DSM programs consistent with form EIA-861 as required by the U.S. Energy Information Administration (EIA).

As a not-for-profit, community-owned utility, JEA will continue to review and adjust its investment in energy and efficiency.

JEA's DSM FEECA Portfolio

JEA's FEECA portfolio consists of four (4) residential programs, two (2) commercial programs as described below. Achieved kW and kWh reductions are on page 5.

A. Residential FEECA Programs

- **Residential Energy Audit Program** uses auditors to examine homes, educate customers and make recommendations on low-cost or no-cost energy-saving practices and measures.
- **Residential Solar Water Heating** pays a financial incentive to customers to encourage the use of solar water heating technology.
- **Residential Solar Net Metering** promotes the use of solar photovoltaic systems by purchasing excessive power from residential customers implementing these systems.
- **Neighborhood Efficiency Program** offers education concerning the efficient use of energy & water as well as the direct installation of an array of energy & water efficient measures at no cost to income-qualified customers.

B. Commercial FEECA Programs

- **Commercial Energy Audit Program** uses auditors to examine businesses, educate customers and make recommendations on low-cost or no-cost energy-saving practices and measures.
- **Commercial Solar Net Metering** promotes the use of solar photovoltaic systems by purchasing excessive power from commercial customers implementing these systems.

JEA's DSM Non-RIM Portfolio

JEA's non-RIM portfolio consists of three (3) residential programs, three (3) commercial programs as described below. Achieved kW and kWh reductions are summarized on page 4.

A. Residential Non-RIM Programs

- **Residential Efficiency Upgrade** pays a financial incentive to encourage the use of high efficiency HVAC and water heating products and services.
- **Energy Efficient Products** pays a financial incentive to encourage the use of high efficiency lighting and appliance products.

- **Residential New Build** promotes the use high efficiency HVAC, water heating, lighting and appliances in the new construction market.
- **MyWay Prepaid Program** offers an option for all customers, especially those who prefer to prepay for services vs being billed monthly. It is consumer-focused experience for environmentally conscious consumers who like to keep their consumption in mind.

B. Commercial Non-RIM Programs

- **Commercial Prescriptive Program** pays a financial incentive to encourage the use of high efficiency HVACR, lighting, cooking and water heating products and services.
- **Small Business Direct Install Program** promotes the use high efficiency HVAC, water heating, lighting and appliances in the small business sector.
- **Custom Commercial Program** promotes the use of custom efficiency measures based on specific applications for each customer.

JEA's 2019 NON-RIM PORTFOLIO	Winter Peak MW Reduction	Summer Peak MW Reduction	GWh Energy Reduction
Total	3.89	4.78	40.4
Residential	1.24	0.18	17.2
Commercial	2.65	4.60	23.2
