Re: Rule 25-6.065 FAC

Dear Mr. Futrell and Ms. Marr:

The City of Winter Park Electric Utility currently does not have any net metered customers. We are working with the Florida Municipal Electric Association to develop a net metering policy and standardized interconnection agreement for small customer-owned renewable generation. We understand the deadline for adoption of this policy is July 1, 2009.

Please contact me if you have any questions.

Sincerely,

Jerry Warren
Director, Electric Utility
