RE: Rule 25-6.065 FAC

Dear Mr. Futrell and Ms. Marr,

The City of Mount Dora currently does not have any net metered customers. We have been working with the Florida Municipal Electric Association to develop a net metering policy and standardized interconnection agreements for small customer-owned renewable generation. In addition, the City has completed negotiations for an amendment with our power supplier Progress Energy that will allow customers to install renewable generation and the City to purchase energy from those facilities. City staff is planning on presenting a resolution to City Council in April 2010 to approve the Progress Energy amendment, the Standard Interconnection Agreements, the Net Metering Rate Schedule, and the Application for Interconnection.

Please contact me if you have any questions.

Very truly yours,

Charles F. Revell
Electric Utility Manager
