Re: City of Winter Park
Net Metering and Interconnection Policy

Dear Mr. Futrell;

Winter Park Electric Utility is in the process of developing a net metering and interconnection policy. We have many issues to address, including the ability to integrate net metered customer generation resources with the contractual terms of our full-requirements power supplier. We expect to have the policies complete in the coming months, and will forward them to you when they are adopted by our governing board.

Sincerely;

Terry Hotard
Assistant Director, Winter Park Electric Utility
