Re: Rule 25-6.065 FAC

Dear Mr. Futrell and Ms. Marr,

The City of Homestead Electric Utility, Homestead Energy Services, currently does not have any net metered customers. We are working with the Florida Municipal Electric Association to develop a net metering policy and standardized interconnection agreement for small customer-owned renewable generation. We expect to adopt this policy by July, 2011.

In the interim, any customer wishing to install customer-owned renewable generation will be accommodated on an individual basis.

Please contact me if you have any questions.

Sincerely,
