Ms. Kummer:

Attached is WREC's net metering report. WREC currently has 71 small grid tied photo voltaic systems and one wind generator for a total of 329.69 kW. WREC net meters and four of the systems generated more energy (4,521 kWh collectively) than the members used.

Members have direct access to WREC's interconnect/net metering agreement via our website wrec.net, and the program is promoted through our member news and the website.

If you have any questions or comments please feel free to give me a call at 352-567-5133 Ext. 6102.

Sincerely,

A handwritten signature in black ink that reads "David B. Lambert".
