Note:

1. The City of Tallahassee electric system has a total of 272 Solar PV Installations equating to 1904.2 KWdc. Some Solar PV systems do not have a net metering agreement or are combined in to one service account, therefore only 183 PV systems are reported.
2. The total Customer count listed in this table is 188, the actual Customer count is 183, with some entries listed as 0 for KW capacity (dc) and Gross Power Rating (AC) and N/A in the Interconnect Date. This is due to meter changeout during the year, customers with multiple net metering agreements (customer increased the size of their system), and/or the customer removed the system.
