Net Metering Report for Year Ending December 31, 2018

**Submitted on behalf of:
Lakeland Electric, a municipally owned electric utility in Lakeland, Florida**

This document includes all of the required data and submittals for the annual report in keeping with **PSC Rule 25-6.065 Interconnection and Net Metering of Customer-Owned Renewable Generation.**

(a) Total number of customer-owned renewable generation interconnections as of the end of the previous calendar year: 307

(b) Total kW capacity of customer-owned renewable generation interconnected as of the end of the previous calendar year: 2,104.4351 kWac

(c) Total kWh received by interconnected customers from the electric utility, by month and by year for the previous calendar year: See Table 1

(d) Total kWh of customer-owned renewable generation delivered to the electric utility, by month and by year for the previous calendar year: See Table 1

(e) Total energy payments made to interconnected customers for customer-owned renewable generation delivered to the electric utility for the previous calendar year, along with the total payments made since the implementation of this rule. No payments

(f) For each individual customer-owned renewable generation interconnection:

1. Renewable technology utilized;
2. Gross power rating;
3. Geographic location by county; and
4. Date interconnected.
