RE: EVALUATION OF THE COST-EFFECTIVENESS OF
UTILITY-SPONSORED ENERGY EFFICIENCY AND
DEMAND-SIDE MANAGEMENT PROGRAMS

ISSUED: April 2, 2008

NOTICE is hereby given that staff of the Florida Public Service Commission will conduct a workshop on Evaluation of the Cost-Effectiveness of Utility-Sponsored Energy Efficiency and Demand-Side Management Programs, to which all persons are invited, at the following time and place:

Friday, April 25, 2008, 9:30 a.m.
Room 148, Betty Easley Conference Center
4075 Esplanade Way
Tallahassee, FL 32399-0862

PURPOSE

The purpose of the workshop is to discuss how the costs and benefits of utility-sponsored energy efficiency and demand-side programs should be evaluated. Various methods to evaluate the cost-effectiveness of utility-sponsored energy efficiency programs will be discussed, including (1) what each method is designed to achieve, (2) whether these methods are capturing all the benefits and costs of energy efficiency, (3) how these methods impact the level of conservation goals, (4) whether these methods should be modified to address other concerns, and (5) inclusion and quantification of non-economic costs and benefits. The Commission's staff encourages an open dialog at the workshop from a wide range of stakeholders on how cost-effectiveness measures can be modified to enhance energy efficiency and conservation efforts in Florida. Workshop participants will also be provided with an opportunity to submit post-workshop written comments. A copy of the Agenda will be available by April 14, 2008.
