**2. Number of meters served in calendar year 2021**

For calendar year 2021 in the month of December, the City of Moore Haven served 864 residential customers and 127 commercial customers for a total of 991 customers.

**3. Facility Inspections**

- a) The City of Moore Haven continuously inspects distribution lines, poles and structures. As discrepancies are located, the electric crew consisting of two linemen plan and perform repairs. There is a visual inspection of all poles every year. Also performed physical inspections of poles using the sound method. The City inspected and upgraded the system where and when needed. During inspections, applied pole patch to the top above the crossarms where needed and replaced the poles as needed. Also straightened and restabilized leaning poles as necessary.
- a) The City continuously inspected lines, poles and structures during 2022 since the City is just over one square mile and can easily inspected during routine activities. Replacement included five (5) 35' poles and five (5) 40' poles.
- b) The City is upgrading 3-phase poles and has no transmission lines or poles.
- c) Replacement of distribution poles included five (5) 35' poles and five (5) 40' poles. The City has no transmission poles. Due to damages from Hurricane Ian, (2) two damaged 40' distribution poles were replaced.

**4. Vegetation Management**

- a) The City of Moore Haven continuously trims trees located in easements and on rights-of-way throughout the year with 100% of the power distribution system being trimmed throughout each year. The City monitors all new construction on private property and communicating

with owners the importance of locating vegetation away from all utilities. Most residents are willing to comply and since the City is just over one square mile, when issues are identified through normal operations the residents will be contacted.

- b) The City continues to expend approximately 20% of the Electric Department resources for vegetation management.
