Subject: smart meter complaint with FPL

MR. Clemence,

I spoke with you on Wednesday about the unauthorized installation of a smart meter on my home.

At this time I would like to file a formal complaint against FPL and there contractors.

I called when the hang card was left on my door to let FPL I did not want the smart meter at that time I was told a consumer advocacy person would call me to discuss the meter. Pedro from FPL called we discussed the meter and I told him at that time I still did not want the meter. The following day the meter was installed on my home. I spoke with Pedro again and was told it would take 5 to 10 working days to replace the meter with the old one. I was not happy with that answer and asked to speak with a supervisor Pedro told me he was as high as I could go and would have to accept his answer. Which I did not. That is when I called you on Wednesday. The following day I called again to FPL and talked with a gentleman named David I explained the problem he did put through to a supervisor her name was Lanette. Thee two were quite helpful and assured me that the meter would be changed and gave me a direct number to call if the meter is not changed. I do not know enough about these meters from security to health safety and for those reason I do not want to have this meter insalled. I belive as a citizen I have the right to do what ever I feel I need to do to protect myself and my family's health safety and well being. Mr. Clemence will you please file trhis complaint on my behalf with the PSC.

Mr. Clemence I appreciate all the time you took with me on Wednesday and if there is any more I can do please contact me.

Thank You.
