**Subject:** smart meters

Dear Mr. Clemence

when the President gave stimulus money to the electric companies it was to benefit the American people. He wanted us to be an energy efficient nation and also, it was supposed to put people back to work. That was the intentions!!

Is it so hard to believe that the electric companies did not do what they said they would do?!! What they ACTUALLY did was to manufacture a wireless unit thereby LAYING OFF THE METER READERS. It is also a surveillance device that monitors our activities throughout the day and they sell that information to whoever chooses to buy it. these meters emit EMF, microwaves that are making us sick. They know all of this but they will defend these meters with their dying breath because of all the money involved. Putting money ahead of the health and welfare of the people, Now there is a new concept !! The ELECTRIC COMPANIES ARE UN-AMERICAN. they pretty much stold the stimulus money for their own selfish motives and are now shoving these meters down the throats of the American people and get nasty with us when we give them resistance!!

Mr. Clemence, somebody needs to take a hard look at what is really going on. The electric companies are "sticking it to the American people".Somebody needs to "call a spade a spade." ELECTRIC COMPANIES TAKE BACK YOUR JUNK AND RETURN OUR STIMULUS MONEY!!!

Mr. Clemence, this country fought wars to be a free people. Now on our own homeland we are being dominated, abused and intimidated by THE ELECTRIC COMPANIES?!!!

All across the country the people are banning together and fighting against these meters. Calif. has had them banned in (67) cities. We are a peaceful nation and we fight only to defend ourselves..Mr. Clemence,HELP US TO DEFEND OURSELVES.

Respectfully yours,

Sandra Pennypacker

Mr. Clemence,

These smart meters emit cancer causing microwaves and NO ONE IS IMMUNE. These meters are everywhere and we are being bombarded 24/7. while your children are sitting in school. and YOUR WHOLE FAMILY is sitting in church. If your wife develops breast cancer are you the one who is going to tell her you could,ve prevented it?!!

Senior citizens are very much affected. Can you watch your aging mother die of cancer and know you could,ve prevented it?!!

If you can,t keep your own family out of HARMS WAY what else means anything?!!!
