Subject: Support Solar Development in Florida
Date: Tuesday, June 23, 2015 11:36:11 AM

Dear Mr. Tan,

I am writing in my capacity as Mayor of the City of South Miami, representing the views of my residents and the City Commission.

1) My city favors Florida's current net metering laws, and we oppose any increase in connection fees. We believe the current \$7.50 monthly connection charge is sufficient to cover transmission costs associated with net metering.

2) We support third-party sales of solar power, and the possibilities of microgrids and power reliability enhancements associated with innovation that will come about as a result of third-party sales.

3) Finally, we fully support solar public and private energy initiatives to displace carbon fuel consumption and reduce nuclear waste generation.

Sincerely,

Dr. Philip K. Stoddard
Mayor of South Miami
