Subject: Request for Comments on Solar Energy in Florida
Date: Saturday, June 20, 2015 2:10:50 PM

Hi,

It will be a great idea if Solar Energy in Florida could talk to Space Center in Titusville to see if they could form some partnership where space center could provide land and technology support while Florida could provide labor force and tourism for the new space center "solar technology tourism".

Thanks,

Shaoming Zhang
